Broken Daughters - Alex Jones 2021-09-21

This is the part of my journey where I speak about you and hopefully, to you. I hope that after reading this, you will realize that the abuse you suffered was never your fault, and that speaking out was the right and only thing you could do. I know you are trying to overcome and accept your scars, your fight and your pain. I know you feel guilty about surviving, and I hope I can teach you to celebrate your victory. I know that you have spent every moment since you found your voice to choose right over wrong, even when others didn't. I know you get up and show up each day, even though you'd rather

crawl into a hole, and live there forever. I know you are clinging to a life that has let you down, that confuses you, that has betrayed you, and that has desperately disappointed you. I know you are holding on for dear life. I know that you sometimes can't breathe when the waves of sorrow come crashing down on you. I know you are trying to find your place in a broken world, filled with broken people. I know you force a smile, when all you really want to do is cry. I know how much you hate yourself each time you look in the mirror, unable to find a reason to love yourself. I know you are trying, even when no-one else can see it. I am trying too. I am with you. Believe only this if you can believe nothing else. If you had told me a week before I woke up different that I would be stronger, braver and determined to banish my monsters back into the abyss, this time without me and my sisters, I would never have believed you. I was afraid, I was complicit, I thought I was loved, but more than anything, I loved the boogeyman. One morning, I woke up different, and so will you. You will be removed from those against you when you figure out who those are that serve you. You will no longer care about those who watch from the sidelines, unable to commit to picking a side. Those that pretend not to know, not to hear, and not to see. You will discard

all that no longer offers you peace. You will value your opinion more - others won't matter so much. Your only validation will come from you, no-one else. Loyalty will first be for you. You will reclaim the you that was once stolen from you, and from the world. You will reclaim your heart, body, mind and soul. You will eventually reclaim your joy and your happiness. You will ultimately reclaim that inner you that was stolen by the monsters of your days and of your nights. More than anything, for the remainder of your life, you will remember that you were called to a war, many others weren't. Perhaps you've seen too much. Perhaps you've felt too much and been through more than you should have. Perhaps, you've been asked too much of, and perhaps, you've lost too much of yourself along the way. I am here to tell you that all the too-much'es can never dim your beauty, your strength and your you'ness. You will find your way, because despite the too-much'es, you are still here. You are chosen because of the too-much'es, others would never have survived. It happened to you, it isn't you. It doesn't define you and it will never be who you are. Their truth will never be your truth. You are grace.

How to Fix a Broken Heart - Guy Winch 2018-02-13

Imagine if we treated broken hearts with the same respect and concern we have for broken arms? Psychologist Guy Winch urges us to rethink the way we deal with emotional pain, offering warm, wise, and witty advice for the broken-hearted. Real heartbreak is unmistakable. We think of nothing else. We feel nothing else. We care about nothing else. Yet while we wouldn't expect someone to return to daily activities immediately after suffering a broken limb, heartbroken people are expected to function normally in their

lives, despite the emotional pain they feel. Now psychologist Guy Winch imagines how different things would be if we paid more attention to this unique emotion—if only we can understand how heartbreak works, we can begin to fix it. Through compelling research and new scientific studies, Winch reveals how and why heartbreak impacts our brain and our behavior in dramatic and unexpected ways, regardless of our age. Emotional pain lowers our ability to reason, to think creatively, to problem solve, and to function at our best. In *How to Fix a Broken Heart* he focuses on two types of emotional pain—romantic heartbreak and the heartbreak that results from the loss of a cherished pet. These experiences are both accompanied by severe grief responses, yet they are not deemed as important as, for example, a formal divorce or the loss of a close relative. As a result, we are often deprived of the recognition, support, and compassion afforded to those whose heartbreak is considered more significant. Our heart might be broken, but we do not have to break with it. Winch reveals that recovering from heartbreak always starts with a decision, a determination to move on when our mind is fighting to keep us stuck. We can take control of our lives and our minds and put ourselves on the path to healing. Winch offers a toolkit on how to handle and cope with a broken heart and how to, eventually, move on.

The Soul of the Soldier - Thomas Tiplady 1918

The sketches in this book and in my previous one, "The Cross at the Front," are attempts to show the soul of the soldier serving in France as I have seen it during the year and a half that I have been with him. It is a padre's privilege and duty to be the voice with which, in public worship, the soldiers speak to God; and through which their last thoughts are borne to their friends at home. He is their voice both when they are sick or wounded, and when they lie silent in the grave. He speaks of their hopes and fears, hardships and heroisms, laughter and tears. As best he may he tries to tell, to those who have a right and a longing to know, how they thought, and how they bore themselves in the great day of trial when all risked their lives and many laid them down. Soldiers, as a rule, are either inarticulate or do not care to speak of themselves; and the padre has to be their spokesman if ever their deeper thoughts and finer actions are to be known to their friends. To do this he may have to bring himself into the picture, or even illustrate a common thing in their lives by a personal experience of his own. To reveal life and thought at the Front in the third person, and without sacrificing truth and vividness, requires a degree of literary power and art which cannot be expected of a padre to whom writing is but a by-product, and not his main work. I have written but little of military operations--these things are not in my province. Moreover, they are not the things which are most revealing. The presence of Spring is first and most surely revealed by the flowers in our gardens and lanes; and the soldier

is most clearly seen in the little things that happen on the march--in his billet or in the Dressing Station. Some things are not seen at all. They are only felt, and my opinion about them must be taken for what it is worth. One knows what the men are by their influence on one's own mind and life. I do not judge the morality and spirituality of our soldiers entirely by their habits and speech, for these are but outward and clumsy expressions of the inner life and are largely conventional. There is something else to put in the reckoning, and to find out what the soldiers are worth to us we must somehow get behind their words and actions and find out what they are worth to God, whose terrible wheel of war is shaping their characters. I appraise them mostly by the total effect of the impact of their souls on mine. I know their thoughts and feelings by the thoughts and feelings they inspire in me. "Do men gather grapes of thorns or figs of thistles?" There are certain thoughts and emotions that only come to me strongly when I am with the soldiers or when I am living again with them in memory, and so, I take these as their gift to me and judge the men by their influence on my character. Character is, in its influence, subtle as Spring. Words and actions by themselves are too coarse and conventional to do anything but mislead us in judging the quality of our men. "By their fruits ye shall know them." Not by their leaves. Fruit is seed. In the seed the tree reproduces itself. And reproduction, whether in physical, moral or spiritual life, is the test of vitality. To be continue in this ebook...

Impossible Love - Craig Keener 2016-04-05

Gripping True Story of War and Romance, Hope and Miracles When the odds are impossible, love goes to work. In this thrilling true-life story, readers follow the path of friendship that grows into a romance that spans continents and survives devastating hardship. Long after they parted for their respective worlds, Craig realized his love for her and began the arduous--and often supernatural--journey to be reunited. Médine faced terror and disease as a refugee in the war-torn Congo; Craig did not know most days if she was alive or dead. Their tender story of love beating the odds inspires readers to believe that God's own great love for each of us will always overcome.

Soul-Split Son - RD Borden Jr. 2017-03-01

Ive spent years developing my love of writing and placing that love into a synopsis of my life. My poems arent just words to be read. They are gateways into my life. My earlier works, which will be obvious to identify, will briefly show the pains and transitions Ive endured to be the man that has gone off to serve his country, a man who was once a boy who proudly serves his community. Later works express large amounts of pain and sacrifice to become the educated man of god i am now. Although the listed entries are limited, each page opens a part of my soul unknown to those even closest to me.
