Social Science Research - Anol Bhattacharjee 2012-04-01

This book is designed to introduce doctoral and graduate students to the process of conducting scientific research in the social sciences, business, education, public health, and related disciplines. It is a one-stop, comprehensive, and compact source for foundational concepts in behavioral research, and can serve as a stand-alone text or as a supplement to research readings in any doctoral seminar or research methods class. This book is currently used as a research text at universities on six continents and will shortly be available in nine different languages.

Roth after Eighty - David Gooblar 2016-12-15

Roth after Eighty offers a retrospective reading of the career and works of American author, Philip Roth. Drawing on eleven original essays from experts in the field of Roth studies from several national perspectives, this collection argues for a consideration of Roth's "retirement" as another phase of his career.

Paperbound Books in Print - 1992

Principles and Practice of American Politics: Classic and Contemporary Readings, 5th Edition - Samuel Kernell 2013

This collection examines the strategic behavior of key players in American politics from the Founding Fathers to the Super PACs, by showing that political actors, though motivated by their own interests, are governed by the Constitution, the law, and institutional rules, as well as influenced by the strategies of others.

The City Reader - Richard T. LeGates 2015-07-16

The sixth edition of the highly successful The City Reader juxtaposes the very best classic and contemporary writings on the city to provide the comprehensive mapping of the terrain of Urban Studies and Planning old and new. The City Reader is the anchor volume in the Routledge Urban Reader Series and is now integrated with all ten other titles in the series. This edition has been extensively updated and expanded to reflect the latest thinking in each of the disciplinary areas included and in topical areas such as compact cities, urban history, place making, sustainable urban development, globalization, cities and climate change, the world city network, the impact of technology on cities, resilient cities, cities in Africa and the Middle East, and urban theory. The new edition places greater emphasis on cities in the developing world, globalization and the global city system of the future. The plate sections have been revised and updated. Sixty generous selections are included: forty-four from the fifth edition, and sixteen new selections, including three newly written exclusively for The City Reader. The sixth edition keeps classic writings by authors such as Ebenezer Howard, Ernest W. Burgess, LeCorbusier, Lewis Mumford, Jane Jacobs, and Louis Wirth, as well as the best contemporary writings of, among others, Peter Hall, Manuel Castells, David Harvey, Saskia Sassen, and Kenneth Jackson. In addition to newly commissioned selections by Yasser Elshestawy, Peter Taylor, and Lawrence Vale, new selections in the sixth edition include writings by Aristotle, Peter Calthorpe, Alberto Camarillo, Filip DeBoech, Edward Glaeser, David Owen, Henri Pirenne, The Project for Public Spaces, Jonas Rabinovich and Joseph Lietman, Doug Saunders, and Bish Sanyal. The anthology features general and section introductions as well as individual introductions to the selected articles introducing the authors,

providing context, relating the selection to other selection, and providing a bibliography for further study. The sixth edition includes fifty plates in four plate sections, substantially revised from the fifth edition.

Liberty, Order, and Justice - James McClellan 2000

This new Liberty Fund edition of James McClellan's classic work on the quest for liberty, order, and justice in England and America includes the author's revisions to the original edition published in 1989 by the Center for Judicial Studies. Unlike most textbooks in American Government, Liberty, Order, and Justice seeks to familiarize the student with the basic principles of the Constitution, and to explain their origin, meaning, and purpose. Particular emphasis is placed on federalism and the separation of powers. These features of the book, together with its extensive and unique historical illustrations, make this new edition of Liberty, Order, and Justice especially suitable for introductory classes in American Government and for high school students in advanced placement courses.

Measuring the Effectiveness of Regional Governing Systems - David K. Hamilton 2012-10-23

Regional governance is a topical public policy issue and is receiving increased attention from scholars, government officials and civic leaders. As countries continue to urbanize and centralize economic functions and population in metropolitan regions, the traditional governing system is not equipped to handle policy issues that spill over local government boundaries. Governments have utilized four basic approaches to address the regional governing problem: consolidating governments, adding a regional tier, creating regional special districts, and functional cooperative approaches. The first two are structural approaches that require major (radical) changes to the governing system. The latter two are governance approaches that contemplate marginal changes to the existing governance structure and rely generally on cooperation with other governments and collaboration with the nongovernmental sector. Canada and the United States have experimented with these basic forms of regional governance. This book is a systematic analysis of these basic forms as they have been experienced by North American cities. Utilizing cases from Canada and the United States, the book provides an in-depth analysis of the pros and cons of each approach to regional governance. This research provides an additional perspective on Canadian and U.S. regional governance and adds to the knowledge of Canadian and United States governing systems. This study contributes to the literature on the various approaches to regional governance as well as bringing together the most current literature on regional governance. The author develops a framework of the values that a regional governing system should provide and measures to assess how well each basic approach achieves these values. Based on this assessment, he suggests an approach to regional governance for North American metropolitan areas that best achieves these values.

American Politics Today - William T. Bianco 2017

The Fifth Edition of American Politics Today is designed to show students the reality of politics today and how it connects to their own lives. New features--from chapter opening cases that address the kinds of questions students ask, to full-page graphics that

illustrate key political processes--show students how politics works and why it matters. All components of the learning package--textbook, InQuizitive adaptive learning tool, and coursepack--are organized around specific chapter learning goals to ensure that students learn the nuts and bolts of American government.

Brooks/Cole Empowerment Series: Human Behavior in the Macro Social Environment - Karen K. Kirst-Ashman 2013-03-01

Best-selling author Karen Kirst-Ashman introduces you to the ins and outs of human behavior in macro settings in HUMAN BEHAVIOR IN THE MACRO SOCIAL ENVIRONMENT: AN EMPOWERMENT APPROACH TO UNDERSTANDING COMMUNITIES, ORGANIZATIONS, AND GROUPS, Fourth Edition. The book challenges you to think critically about how macro systems affect human behavior and ultimately, the practice of social work. The author focuses on empowerment, highlighting the ways that communities, organizations, and groups promote positive change by building upon their strengths-taking you straight to the heart of what social work is all about. Available with InfoTrac Student Collections <http://gocengage.com/infotrac>. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Basics of American Government - Carl D. Cavalli 2013-08-06

The Basics of American Government is a collaborative effort among eight current and one former faculty members in the Departments of Political Science and Criminal Justice at University of North Georgia. The purpose of this book is to offer a no-frills, low-cost, yet comprehensive overview of the American political system for students taking introductory courses in American national government. Furthermore, the work combines the best aspects of both a traditional textbook and a reader in that most chapters offer a piece of original scholarship as a case study to bolster or reinforce the material presented in the chapter. In addition, many chapters present a civic engagement-type exercise and discussion questions intended to challenge, engage, and foster student participation in the political system. The authors undertook this project for several reasons, most notably the high costs of textbooks for students and the lack of college-level scholarship found in most American Government texts. This 375-page, peer-reviewed, edited book that combines traditional material with original scholarship will cost students \$27.99, well below market standards. All of the authors are experienced classroom instructors, subject matter experts, and published researchers in the field of American politics.

Wildlife Management and Conservation - Paul R. Krausman 2013-11

A definitive textbook for students of wildlife management. Wildlife Management and Conservation presents a clear overview of the management and conservation of animals, their habitats, and how people influence both. The relationship among these three components of wildlife management is explained in chapters written by leading experts and is designed to prepare wildlife students for careers in which they will be charged with maintaining healthy animal populations; finding ways to restore depleted populations while reducing overabundant, introduced, or pest species; and managing relationships among various human stakeholders. Topics covered in this book include • The definitions of wildlife and management • Human dimensions of wildlife management • Animal behavior • Predator-prey relationships • Structured decision making • Issues of scale in wildlife management • Wildlife health • Historical context of wildlife management and conservation • Hunting and trapping • Nongame species • Nutrition ecology • Water management • Climate change • Conservation planning

American Book Publishing Record - 2006

Principles and Practice Of American Politics: Classic and Contemporary Readings, 3rd Edition - Samuel Kernell 2006-07-15

Without ever losing sight of the classics, Kernell and Smith take a fresh look at the implications of political science for our understanding of recent events and trends. This balance of the classic with the contemporary--along with careful editing to retain the flow of original pieces--distinguishes this highly regarded reader. Drawing from a variety of sources and perspectives, readings examine the strategic behavior of key players in American politics. These 44 selections show that political actors,

though motivated by their own interests, are governed by the Constitution, the law, and institutional rules, as well as influenced by the strategies of others. Thanks to feedback from adopters, 26 readings are back by popular demand, while 17 new or revised selections offer readable and current analyses, 5 of which have been written specifically for this volume. Kernell and Smith supply helpful headnotes for each reading, establishing important context and rationale for selections

The Logic of American Politics 5th Ed. + Principles, 5th Ed. + Winning in 2012 - Samuel Kernell 2012-07-15

Politics in a Religious World - Eric Patterson 2011-09-29

Politics in a Religious World examines why US diplomacy often misunderstands, if not ignores, the role of religion in international conflicts. After the Cold War, it became evident that religion was a key factor in many conflicts, including Bosnia, Rwanda, and Afghanistan. However, the US failed to correctly appreciate this role, for example predicting the failure of the Iranian theocrats in 1979. Today, most of the security and foreign relations challenges faced by the US are infused with religious factors, from its relations with Iran to the Iraq war and jihadist terrorists. Religion, however, can also play a transnational role when it comes to human rights, conflict resolution, and political mobilization. Written by an expert in the field, the book analyzes why the US deliberately avoids the religious dimension of international affairs and proposes a comprehensive approach to a religiously literate US foreign policy. Politics in a Religious World addresses a needed area and will appeal to anyone studying US foreign policy as well as the interaction of religion and international affairs.

A Theory of Justice - John RAWLS 2009-06-30

Though the revised edition of A Theory of Justice, published in 1999, is the definitive statement of Rawls's view, so much of the extensive literature on Rawls's theory refers to the first edition. This reissue makes the first edition once again available for scholars and serious students of Rawls's work.

Walden Two - B. F. Skinner 2005-07-15

A reprint of the 1976 Macmillan edition. This fictional outline of a modern utopia has been a center of controversy ever since its publication in 1948. Set in the United States, it pictures a society in which human problems are solved by a scientific technology of human conduct.

Counseling and Psychotherapy Theories in Context and Practice, with Video Resource Center - John Sommers-Flanagan 2015-06-22

"Counseling and Psychotherapy Theories in Context and Practice: Skills, Strategies, and Techniques, 2nd Edition is an in-depth guide that provides useful learning aids, instructions for ongoing assessment, and valuable case studies. More than just a reference, this approachable resource highlights practical applications of theoretical concepts, covering both theory and technique with one text. Easy to read and with engaging information that has been recently revised to align with the latest in industry best practices, this book is the perfect resource for graduate level counseling theory courses in counselor education, marriage and family therapy, counseling psychology, and clinical psychology."--Publisher's website.

The Logic of American Politics - Samuel Kernell 2010-12-15

Logic now with a free supplement analyzing the midterm elections. Coming in December, this valuable supplement will provide an insider's guide to the 2010 midterm elections. When placing your order, be sure to use the ISBN on this page to ensure that your students receive the supplement packaged FREE with their textbook. The Logic of American Politics, 4th Edition The logic of American politics? Are those snickers from your students as they deride the phrase an oxymoron? By helping them see that political institutions and practices are imperfect solutions to collective action problems, distinguished scholars Samuel Kernell and Gary C. Jacobson--and new coauthor Thad Kousser--reveal a rationale to the U.S. political system and give students a window through which they can not only view American politics but also come to understand it. Known for its engaging narrative, the book's new edition continues to weave historical context, current politics, and analytic concepts into a text that gently strengthens students' theoretical understanding while hooking them with great storytelling. In order to make the argument fully accessible to a

student audience, the new edition highlights passages that apply the collective action and institutional design themes presented in the introduction. The fourth edition has been revised and updated throughout, and will include full coverage of the 2008 elections. Two major developments in the new edition deserve special note: a new section in the first chapter introduces students to a "toolkit" of institutional design concepts—command, veto, agenda control, voting rules, delegation—and examples of how they work. With this toolkit, students learn the concepts for exploring America's governmental system in later chapters. With a fully revised final chapter, Logic looks forward to assess the implications of its argument for widely promoted reforms of policy and institutions. Tables, figures, photographs, cartoons, bolded key terms, a glossary, annotated reading lists, review questions, and exercises help illustrate core ideas and aid in review and study. A series of thematic boxes further the book's analytic framework: Logic of Politics examines the design of various political institutions in light of the objectives they were intended to achieve. Strategy and Choice shows how officeholders and those seeking to influence them employ institutions to advance their goals. Politics to Policy highlights how public policies reflect the institutions that produce them and evaluate institutional capacity to solve the nation's problems. For more information about *The Logic of American Politics, 4th Edition*, click here. *Principles and Practice of American Politics: Classic and Contemporary Readings, 4th Edition* Combining timeless readings with cutting-edge, current selections, Kernell and Smith bring judicious editing and important context for students learning the ropes of American government. This collection effectively examines the strategic behavior of key players in American politics, showing that political actors, though motivated by their own interests, are governed by the Constitution, the law, and institutional rules, as well as influenced by the strategies of others. For more information about *Principles and Practice of American Politics*, click here.

Children - David Archard 2014-11-20

Children: Rights and Childhood is widely regarded as the first book to offer a detailed philosophical examination of children's rights. David Archard provides a clear and accessible introduction to a topic that has assumed increasing relevance since the book's first publication. Divided clearly into three parts, it covers key topics such as: John Locke's writings on children Philippe Ariès's *Centuries of Childhood* children's moral and legal rights a child's right to vote and to sexual choice parental rights to privacy and autonomy defining and understanding child abuse. The third edition has been fully revised and updated throughout with a new chapter providing an in-depth analysis of the United Nations Convention on the Rights of the Child (UNCRC) and Part 2 has been restructured to move the reader from general theoretical considerations of children's rights through to practical issues. This volume is ideal reading for advanced studies across Philosophy, Social Work, Law, Childhood Studies, Politics, and Social Policy. *The Principles of Moral and Political Philosophy* - William Paley 1810

The American Political System - Ken Kollman 2015-02-17

Empirical puzzles get students thinking like political scientists. *The Mathematics of Politics, Second Edition* - E. Arthur Robinson 2016-11-18

It is because mathematics is often misunderstood, it is commonly believed it has nothing to say about politics. The high school experience with mathematics, for so many the lasting impression of the subject, suggests that mathematics is the study of numbers, operations, formulas, and manipulations of symbols. Those believing this is the extent of mathematics might conclude mathematics has no relevance to politics. This book counters this impression. The second edition of this popular book focuses on mathematical reasoning about politics. In the search for ideal ways to make certain kinds of decisions, a lot of wasted effort can be averted if mathematics can determine that finding such an ideal is actually impossible in the first place. In the first three parts of this book, we address the following three political questions: (1) Is there a good way to choose winners of elections? (2) Is there a good way to apportion congressional seats? (3) Is there a good way to make decisions in situations of conflict and uncertainty? In the fourth and final part of this book, we examine the Electoral

College system that is used in the United States to select a president. There we bring together ideas that are introduced in each of the three earlier parts of the book.

The Challenge of Democracy: American Government in Global Politics, The Essentials - Kenneth Janda 2013-06-25

THE CHALLENGE OF DEMOCRACY: AMERICAN GOVERNMENT IN GLOBAL POLITICS, THE ESSENTIALS introduces new co-author Debra Schildkraut to this stellar author team. This best-selling American government text is highly acclaimed for the non-ideological framework it uses to explore three themes: freedom, order, and equality as political values; the majoritarianism versus pluralism debate; and globalization's effect on American politics. Using an easy to follow approach, with chapters and subheadings numbered and organized by learning outcomes, and a new end of chapter "Assessing Your Understanding" section where students can test their knowledge, the ninth edition provides a solution for teaching and assessing course learning outcomes. Extensively updated, this condensed edition includes new examples, figures, data, and current discussions. The authors include balanced coverage of Obama's historical presidency and coverage and analysis of the 2012 presidential primary campaign and election. This ninth edition of *THE CHALLENGE OF DEMOCRACY, THE ESSENTIALS* is an abridged version of the twelfth edition of *THE CHALLENGE OF DEMOCRACY*. See "Features" for details. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

El-Hi Textbooks & Serials in Print, 2003 - 2003

Counseling and Psychotherapy Theories in Context and Practice - John Sommers-Flanagan 2015-05-27

Apply the major psychotherapy theories into practice with this comprehensive text *Counseling and Psychotherapy Theories in Context and Practice: Skills, Strategies, and Techniques, 2nd Edition* is an in-depth guide that provides useful learning aids, instructions for ongoing assessment, and valuable case studies. More than just a reference, this approachable resource highlights practical applications of theoretical concepts, covering both theory and technique with one text. Easy to read and with engaging information that has been recently revised to align with the latest in industry best practices, this book is the perfect resource for graduate level counseling theory courses in counselor education, marriage and family therapy, counseling psychology, and clinical psychology. Included with each copy of the text is an access code to the online Video Resource Center (VRC). The VRC features eleven videos—each one covering a different therapeutic approach using real therapists and clients, not actors. These videos provide a perfect complement to the book by showing what the different theories look like in practice. The Second Edition features: New chapters on Family Systems Theory and Therapy as well as Gestalt Theory and Therapy Extended case examples in each of the twelve Theory chapters A treatment planning section that illustrates how specific theories can be used in problem formulation, specific interventions, and potential outcomes assessment Deeper and more continuous examination of gender and cultural issues An evidence-based status section in each Theory chapter focusing on what we know from the scientific research, with the goal of developing critical thinking skills A new section on Outcome Measures that provides ideas on how client outcomes can be tracked using practice-based evidence Showcasing the latest research, theory, and evidence-based practice in an engaging and relatable style, *Counseling and Psychotherapy Theories in Context and Practice* is an illuminating text with outstanding practical value.

Rules for Radicals - Saul Alinsky 2010-06-30

First published in 1971, *Rules for Radicals* is Saul Alinsky's impassioned counsel to young radicals on how to effect constructive social change and know "the difference between being a realistic radical and being a rhetorical one." Written in the midst of radical political developments whose direction Alinsky was one of the first to question, this volume exhibits his style at its best. Like Thomas Paine before him, Alinsky was able to combine, both in his person and his writing, the intensity of political engagement with an absolute insistence on rational political discourse and adherence to the American democratic tradition.

Black Rights/white Wrongs - Charles Wade Mills 2017

Liberalism is the political philosophy of equal persons, yet liberalism has denied equality to those it saw as black sub-persons. In *Black Rights/White Wrongs: The Critique of Racial Liberalism*, political philosopher Charles Mills challenges mainstream accounts that ignore this history and its current legacy in the United States today.

[The Logic of American Politics](#) - Samuel Kernell 2006

This is a shrink-wrapped, discounted packaged for the introduction to American government course. The books included are: Kernell and Jacobson's 'The Logic of American Politics, 3rd ed.'; Kernell and Smith's 'Principles and Practice of American Politics, 3rd ed.' [Catalog of Copyright Entries. Third Series](#) - Library of Congress. Copyright Office 1973

Tides of Consent - James A. Stimson 2015-08-25

Politics is a trial in which those in government - and those who aspire to serve - make proposals, debate alternatives, and pass laws. Then the jury of public opinion decides. It likes the proposals or actions or it does not. It trusts the actors or it does not. It moves, always at the margin, and then those who benefit from the movement are declared winners. This book is about that public opinion response. Its most basic premise is that although public opinion rarely matters in a democracy, public opinion change is the exception. Public opinion rarely matters because the public rarely cares enough to act on its concerns or preferences. Change happens only when the threshold of normal public inattention is crossed. When public opinion changes, governments rise or fall, elections are won or lost, and old realities give way to new demands.

Manual for Developing Intercultural Competencies (Open Access) - Darla K. Deardorff 2019-08-16

This book presents a structured yet flexible methodology for developing intercultural competence in a variety of contexts, both formal and informal. Piloted around the world by UNESCO, this methodology has proven to be effective in a range of different contexts and focused on a variety of different issues. It, therefore can be considered an important resource for anyone concerned with effectively managing the growing cultural diversity within our societies to ensure inclusive and sustainable development. Intercultural competence refers to the skills, attitudes, and behaviours needed to improve interactions across difference, whether within a society (differences due to age, gender, religion, socio-economic status, political affiliation, ethnicity, and so on) or across borders. The book serves as a tool to develop those competences, presenting an innovative adaptation of what could be considered an ancient tradition of storytelling found in many cultures. Through engaging in the methodology, participants develop key elements of intercultural competence, including greater self-awareness, openness, respect, reflexivity, empathy, increased awareness of others, and in the end, greater cultural humility. This book will be of great interest to intercultural trainers, policy makers, development practitioners, educators, community organizers, civil society leaders, university lecturers and students - all who are interested in developing intercultural competence as a means to understand and appreciate difference, develop relationships with those across difference, engage in intercultural dialogue, and bridge societal divides.

[Analyzing American Democracy](#) - Jon R. Bond 2013-05-29

Analyzing American Democracy teaches students to think analytically by presenting current political science theories and research in answering the engaging, big questions facing American politics today. It serves as both an introduction to American politics and to the discipline of political science by reflecting the theoretical developments and empirical inquiry conducted by researchers. Every chapter highlights the most current research and discusses related public policy. It demonstrates for students how to think critically and analytically, bringing theoretical insight to contemporary American politics. More than just a comprehensive overview and description of how American politics works, Jon Bond and Kevin Smith demonstrate how politics can be studied systematically. Throughout the text, they introduce students to the insights gleaned from rational choice, behavioral, and biological approaches to politics. Understanding these three social scientific models and their applications helps students get the most out of their American

government course and out of this text--they learn a way of thinking that they can use to make sense of future challenges facing the American polity. A number of features help aid comprehension and critical thinking: Key Questions at the start of every chapter frame the learning objectives and concepts Politics in Practice boxes in every chapter encourage students to think critically about how practice compares with theory Tables, Figures, Charts, and Maps throughout present the empirical details of American politics, helping students gain quantitative literacy Top Ten Takeaway Points at the end of every chapter recap the most important points covered but also help students discern the general principles that make sense of the numerous factual details Key Terms are bolded in the text, defined in the margins, recapped at the end of the chapter, and compiled in a glossary, all to help insure that students can effortlessly master the vocabulary of American politics and political science in order to move on to the more important concepts.

Basic Methods of Policy Analysis and Planning -- Pearson eText - Carl Patton 2015-08-26

Updated in its 3rd edition, *Basic Methods of Policy Analysis and Planning* presents quickly applied methods for analyzing and resolving planning and policy issues at state, regional, and urban levels. Divided into two parts, *Methods* which presents quick methods in nine chapters and is organized around the steps in the policy analysis process, and *Cases* which presents seven policy cases, ranging in degree of complexity, the text provides readers with the resources they need for effective policy planning and analysis. Quantitative and qualitative methods are systematically combined to address policy dilemmas and urban planning problems. Readers and analysts utilizing this text gain comprehensive skills and background needed to impact public policy.

[The Future of Political Science](#) - Gary King 2009-03-15

This book contains some of the newest, most exciting ideas now percolating among political scientists, from hallway conversations to conference room discussions. To spur future research, enrich classroom teaching, and direct non-specialist attention to cutting-edge ideas, a distinguished group of authors from various parts of this sprawling and pluralistic discipline has each contributed a brief essay about a single novel or insufficiently appreciated idea on some aspect of political science. The one hundred essays are concise, no more than a few pages apiece, and informal. While the contributions are highly diverse, readers can find unexpected connections across the volume, tracing echoes as well as diametrically opposed points of view. This book offers compelling points of departure for everyone who is concerned about political science -- whether as a scholar, teacher, student, or interested reader.

Retinal Detachment - Daniel A. Brinton M.D. 2009-07-29

Retinal Detachment: Principles and Practice provides a historical review of current information on the diagnosis and treatment of retinal detachment. It is intended as both an introduction for graduate students in ophthalmology and a concise review or reference for practicing ophthalmologists. The volume defines the types of retinal detachments, their classifications and causes, and covers preoperative examination, preoperative management, prophylactic procedures, surgery, complications of surgery, and results of reattachment surgery. It also includes a historical introduction, suggested readings at the end of each chapter, and the classic article 'The Technique of Binocular Indirect Ophthalmoscopy,' by Morten L. Rosenthal.

Organizational Culture and Leadership - Edgar H. Schein 2010-07-16

Regarded as one of the most influential management books of all time, this fourth edition of *Leadership and Organizational Culture* transforms the abstract concept of culture into a tool that can be used to better shape the dynamics of organization and change. This updated edition focuses on today's business realities. Edgar Schein draws on a wide range of contemporary research to redefine culture and demonstrate the crucial role leaders play in successfully applying the principles of culture to achieve their organizational goals.

Food Policy in the United States - Parke Wilde 2018-04-09

This new edition offers a timely update to the leading textbook dedicated to all aspects of U.S. food policy. The update accounts

for experience with policy changes in the 2014 Farm Bill and prospects for the next Farm Bill, the publication of the 2015–2020 Dietary Guidelines for Americans, the removal of Generally Recognized as Safe (GRAS) status for trans fats, the collapse of the Trans Pacific Partnership (TPP) treaty, stalled child nutrition reauthorization legislation, reforms in food-labeling policy, the consequences of the 2016 presidential election and many other developments. The second edition offers greater attention both to food justice issues and to economic methods, including extensive economics appendices in a new online Companion Website. As with the first edition, real-world controversies and debates motivate the book's attention to economic principles, policy analysis, nutrition science and contemporary data sources. The book assumes that the reader's concern is not just the economic interests of farmers and food producers but also includes nutrition, sustainable agriculture, food justice, the environment and food security. The goal is to make U.S. food policy more comprehensible to those inside and outside the agri-food sector whose interests and aspirations have been ignored. The chapters cover U.S. agriculture, food production and the environment, international agricultural trade, food and beverage manufacturing, food retail and restaurants, food safety, dietary guidance, food labeling, advertising and federal food assistance programs for the poor. The author is an agricultural economist with many years of experience in the nonprofit advocacy sector, the U.S. Department of Agriculture and as a professor at Tufts University. The author's blog on U.S. food policy provides a forum for discussion and debate of the issues set out in the book.

Principles and Practice of American Politics - Samuel Kernell
2018-04-17

Combining timeless readings with cutting-edge articles and essays, *Principles and Practice of American Politics, Seventh Edition*, enriches your understanding of the American political system by examining the strategic behavior of key players in U.S. politics. This collection of classic and contemporary readings brings concepts to life by providing you with real examples of how political actors are influenced by the strategies of others and are governed by the Constitution, the law, and institutional rules. Carefully edited by award-winning authors Samuel Kernell and Steven S. Smith, each reading is put into context to help you understand how political actions fall within a major national political forum. New to the Seventh Edition Nine new and updated essays encourage you to reflect on the continuing debates over

the polarization of the American electorate and Congress, the role of social media and "fake news" in influencing public views of politicians and issues, the fragile Trump coalition, the efficacy of polling in tracking public opinion, and other issues more relevant than ever in the wake of the 2016 elections. Additional essays challenge you to think more carefully about alternative institutions and political arrangements. The new essays present institutions of majority rule, the nature of racial discrimination, and the proper role of the court as less settled issues that provide students an opportunity to think through (and discuss) their views on the future direction of American civic life. Each selection is artfully framed by Kernell and Smith's contextual headnotes to make them appropriate for classroom use. Original readings written specifically for the volume give the book a coherent treatment of the performance of U.S. political institutions.

The SAGE Encyclopedia of Intercultural Competence - Janet M. Bennett
2015-03-23

In 1980, SAGE published Geert Hofstede's *Culture's Consequences*. It opens with a quote from Blaise Pascal: "There are truths on this side of the Pyrenees that are falsehoods on the other." The book became a classic—one of the most cited sources in the Social Science Citation Index—and subsequently appeared in a second edition in 2001. This new SAGE Encyclopedia of Intercultural Competence picks up on themes explored in that book. Cultural competence refers to the set of attitudes, practices, and policies that enables a person or agency to work well with people from differing cultural groups. Other related terms include cultural sensitivity, transcultural skills, diversity competence, and multicultural expertise. What defines a culture? What barriers might block successful communication between individuals or agencies of differing cultures? How can those barriers be understood and navigated to enhance intercultural communication and understanding? These questions and more are explained within the pages of this new reference work. Key Features: 300 to 350 entries organized in A-to-Z fashion in two volumes Signed entries that conclude with Cross-References and Suggestions for Further Readings Thematic "Reader's Guide" in the front matter grouping related entries by broad topic areas Chronology that provides a historical perspective of the development of cultural competence as a discrete field of study Resources appendix and a comprehensive Index The SAGE Encyclopedia of Intercultural Competence is an authoritative and rigorous source on intercultural competence and related issues, making it a must-have reference for all academic libraries.
