**Maintenance Architecture** - Hilary Sample 2016-12-09

An inventive examination of a crucial but neglected aspect of architecture, by an architect writing to architects. Maintenance plays a crucial role in the production and endurance of architecture, yet architects for the most part treat maintenance with indifference. The discipline of architecture values the image of the new over the lived-in, the photogenic empty and stark

building over a messy and labored one. But the fact is: homes need to be cleaned and buildings and cities need to be maintained, and architecture no matter its form cannot escape from such realities. In *Maintenance Architecture*, Hilary Sample offers an inventive examination of the architectural significance of maintenance through a series of short texts and images about specific buildings, materials, and projects. Although architects have seldom choose to represent maintenance—imagining their work only from conception to realization—artists have long explored subjects of endurance and permanence in iconic architecture. Sample explores a range of art projects—by artists including Gordon Matta-Clark, Jeff Wall, and Mierle Laderman Ukeles—to recast the problem of maintenance for architecture. How might architectural design and discourse change as a building cycle expands to include "post-occupancy"? Sample looks particularly at the private home, exhibition pavilion, and high-rise urban building, giving special attention to buildings constructed with novel and developing materials, technologies, and precise detailing in relation to endurance. These include Buckminster Fuller's Dymaxion House (1929), the Lever House (1952), the U.S. Steel Building (1971), and the O-14 (2010). She considers the iconography of skyscrapers; maintenance workforces, both public and private; labor-saving technology and devices; and contemporary architectural projects and preservation techniques that encompass the afterlife of buildings. A selection of artworks make the usually invisible aspects of maintenance visible, from Martha Rosler's *Cleaning the Drapes* to Inigo Manglano-Ovalle's *The Kiss*.

**The Antique Lover's Mysteries** - Deborah Morgan 2022-10-27  
Now available in one volume, the first three books of the Antique Lover's Mysteries! DEATH IS A CABARET Since Jeff Talbot left the FBI, he's been investigating yard sales as a professional antiques picker. From furniture to books, from old clothes to broken toys, nothing escapes his keen eye for appraisal. But there is one item that he always keeps his knowing eyes particularly peeled to find: a one-of-a-kind French cabaret set commissioned by Napoleon for his love, Josephine. It is an item any collector would kill for... So when it's about to be auctioned off — and rival collectors start turning up dead — there are plenty of suspects to choose from. Suddenly Jeff finds himself polishing up his old crime-solving skills as the search for a cabaret set becomes the search for a killer. But can he pick out the right clues before the killer adds him to the collection of dead bodies? THE WEEDLESS WIDOW Jeff Talbot is joining his fishing buddies for their annual trip. He is also trying to coordinate the listing and transportation of his latest haul of antiques. When he arrives at the Northwest Territory Bait and Tackle shop for supplies, he joins his fishing friend, the Judge. Together they find their friend and shop owner, Bill Rhodes murdered. Throughout the fishing trip weekend, Jeff finds himself assisting the local sheriff's department in the investigation. While helping the local law enforcement, Jeff forwards pertinent data to his home computer. When he returns home from his fishing trip, he finds Sheila, his agoraphobic wife, missing. Using former FBI resources, friends and Seattle's police, the search for Sheila Talbot begins. As Jeff searches, he finds her

disappearance clearly linked to the murder. THE MARRIAGE CASKET Antiques picker and ex-FBI agent Jeff Talbot figured he was about to make a killing when Nathan Rose offered him all the antiques in his newly deceased aunt's house dirt cheap. What Jeff hadn't bargained for, however, was the bloodstain beneath one of the old pack rat's priceless rugs, indicating that the death of Verena Rose was no accident. But unlike the police, Jeff doesn't think that nephew Nathan is the culprit. Convinced the answer lies somewhere in the old woman's cluttered house, Jeff starts rummaging and unearths an antique marriage casket crammed with old letters. Reading through these, he discovers the old woman had more than her share of secrets. But now Jeff must determine who hated or feared her enough to commit murder... before he winds up in a casket himself.

**Joe'S Trip Around the Sun** - Mark D. Wecks 2017-01-23

Joe's Trip Around the Sun is a novel for anyone who has ever felt the apparent conflict between religion and the discoveries of modern science. It tells the story of everyman Joe Gray, a humble trucker desperate to find evidence for the spiritual world and his own place within it. Lonely in his reluctant agnosticism, yet inspired by a persistent sense of the metaphysical, Joe must endure a harrowing journey beset with mind-bending technological obstacles, heartbreaking setbacks, and near-death experiences, before he has any chance of uncovering the truth. But will it be in time to be reunited with the love of his life? Will this newfound understanding enable him to overcome a dark evil that has grown to threaten the world? Joe's Trip Around the Sun blurs the line between the physical and spiritual worlds to the point where the reader may question the existence of that

demarcation altogether.

Then, bits of Anka's space capsule begin showing up on the internet. Jeffrey learns that the capsule landed on the Pacific Coast of Washington, with Anka in it. He begins a mad chase to catch up with her, which takes him from Seattle to La Push, Washington, then to British Columbia, Hong Kong, and on to India. Will Jeffrey ever catch up with Anka?
