**Bad Boys, Bad Men** - Donald W. Black 1999-03-25

Whether called black sheep, sociopaths, felons, con men, or misfits, some men break all the rules. They shirk everyday responsibilities, abuse drugs and alcohol, take up criminal careers, and lash out at family members. In the worst cases, they commit rape, murder, and other acts of extreme violence as though they lack a conscience. What makes these men--men we all know, whether as faces in the news or as people close to us--behave the way they do? *Bad Boys, Bad Men* examines antisocial personality disorder or ASP, the mysterious mental condition that underlies this lifelong penchant for bad behavior. Psychiatrist and researcher Donald W. Black, MD, draws on case studies, scientific data, and current events to explore antisocial behavior and to chart the history, nature, and treatment of a misunderstood disorder that affects up to seven million Americans. Citing new evidence from genetics and neuroscience, Black argues that this condition is tied to biological causes and that some people are simply born bad. *Bad Boys, Bad Men* introduces us to people like Ernie, the quintessential juvenile delinquent who had an incestuous relationship with his mother and descended into crime and alcoholism; and John Wayne Gacy, the notorious serial killer whose lifelong pattern of misbehavior escalated to the rape and murder of more than 30 young men and boys. These compelling cases read like medical detective stories as Black tries to separate the lies these men tell from the facts of their lives. *Bad Boys, Bad Men* not only describes the warning signs that predict which troubled children are more likely to become dangerous adults, but also details progress toward treatment for ASP. This volume will be an essential resource for psychiatrists, psychologists, criminologists, victims of crime, families of individuals afflicted with ASP, and anyone else interested in understanding antisocial behavior.

**Why They Kill** - Richard Rhodes 2000-10-10

Richard Rhodes, Pulitzer Prize-winning author of *The Making of the Atomic Bomb*, brings his inimitable vision, exhaustive research, and mesmerizing prose to this timely book that dissects violence and offers new solutions to the age old problem of why people kill. Lonnie Athens was raised by a brutally domineering father. Defying all odds, Athens became a groundbreaking criminologist who turned his scholar's eye to the problem of why people become violent. After a decade of interviewing several hundred violent convicts--men and women of varied background and ethnicity, he discovered "violentization," the four-stage process by which almost any human being can evolve into someone who will assault, rape, or murder another human being. *Why They Kill* is a riveting biography of Athens and a judicious critique of his seminal work, as well as an unflinching investigation into the history of violence.

**The Mind of a Murderer: Privileged Access to the Demons that Drive Extreme Violence** - Katherine Ramsland 2011-02-02

*The Mind of a Murderer: Privileged Access to the Demons That Drive Extreme Violence* presents a series of cases in which a psychiatrist, psychologist, or counselor gained privileged access to a mass or serial murderer, going beyond the typical mental assessment to learn more about criminal behavior. Through their work, readers are

granted a unique view of criminology and a better understanding of the criminal mind. The book opens with the earliest professional observations of criminals in the late 19th century and goes on to explore the rudimentary behavioral profiling and case analysis of the early 20th century. It shows how, by the 1960s and 1970s, behavioral professionals recognized the need for intense study of extreme offenders and got close to the likes of Richard Speck, John Wayne Gacy, and Ted Bundy to gain a fuller picture of their psychological development. Finally, readers learn how today's behavioral professionals rely on neurobiological correlates to assess predatory, impulsive, and addictive behavior.

**Lustmord** - Brian King 1996

These compelling authentic documents are now available for the first time in one volume -- an aesthetic testimony to the emotion and logic of a murderer's mind, a mind filled with terror and hatred, absurdity and horror, pathos and iniquity."Brian King compiled these writings and arranged them in their present order to illustrate the bizarre logic that surfaces in people who are driven into the territory of the criminally insane. He shows with comments and sequence the human delusions and viewpoints that preoccupied the minds of the individuals before, during and after the illegal, cruel, and terrible violent crimes. -- Herbert Mullin, a serial killer who murdered thirteen people in the Santa Cruz area of California between October 1972 and February 1973. A compilation of essays, short stories, memoirs, confessions, letters, manifestoes, poetry, drawings, photographs and other works created by serial killers, mass murderers, cannibals, necrophiles, sexual sadists, psychopaths and assassins."In my lifetime I have murdered 21 human beings. I have committed thousands of burglaries, robberies, larcenies, arsons and last but not least I have committed sodomy on more than 1,000 male human beings. For all of these things I am not the least bit sorry. I have no conscience so that does not worry me. I don't believe in Man, God nor devil. I hate the whole damned human race including myself". -- Carl Panzram, murderer "I wish I could enact a law that would make a dull mind an infamous crime. I'm that embittered. They've done that much to me. Every time they waddle by with a filthy story created by a filthier mind, I wonder. There they go. Free. My potential executioners. Obese in mind and body. The men who perpetrate the world with social, cultural and historical lunacy. They get to kill me. Then I laugh. I know. The whole world has suddenly gone mad. Nothing matters". -- Charles Schmid, Jr., murderer

**Carl Panzram** - 2015

Carl Panzram was a lifelong criminal and hate-filled serial killer. A single act of kindness by prison guard Henry Lesser sparked a friendship that eventually influenced Panzram to write his gruesome autobiography. John Borowski deftly weaves reenactments of Panzram's own words, Lesser's recollections and letters and expert analysis to take you into the mind of a psychopath.

Panzram was abused as a child in the reform homes meant to help him, raped by hobos while train hopping as a young man, and endured prison life filled with extreme torture and corporal punishment. The expert interviewees analyze if Panzram is a product of his psychology or his environment. As the story unfolds they interpret the situations and highlight psychopath's tendencies such as the failure to take responsibility, the need to dominate others and the desire for as many people as possible to pay for their pain. The inclusion of a 45 minute interview of Henry Lesser by San Diego State University's Criminal Justice Program allows for further study and analysis.

**Cruel Sacrifice** - Aphrodite Jones 2005-05

On a freezing January in 1992, five teenage girls crowded into a car. By the end of the night, only four of them were alive. The fifth had been tortured and mutilated nearly beyond recognition. Her name was Shanda Sharer; her age-twelve. When the people of Madison, Indiana heard that a brutal murder had been committed in their midst, they were stunned. Then the story became even more bizarre. The four accused murderers were all girls under the age of eighteen: Melinda Loveless, Laurle Tackett, Hope Rippey, and Tonl Lawrence. Here, for the first time, veteran true crime journalist Aphrodite Jones reveals the shocking truth behind the most savage crime in Indiana history—a tragic story of twisted love and insane jealousy, lesbianism, brutal child abuse, and sadistic ritual killing in small-town America...and of the young innocent who paid the ultimate price.

**Serial Killer Quarterly Vol.1 No.3 "Unsolved in North America"** - Harold Schechter 2014-09-29

Another triple feature! "Unsolved in North America" - the third issue of Serial Killer Quarterly - focuses on 6 American and 2 Canadian cases of multiple murderer in which the slayer has eluded justice. Three years before Jack the Ripper stalked the streets of Whitechapel, a bold and barefoot killer was slipping into Austin's outbuildings to murder and rape black servant girls, sometimes after death. In his Servant Girl Annihilator, acclaimed true crime writer Harold Schechter drags this gruesome piece of Texan history back into the light for modern eyes to behold. 2500 miles north as the crow flies, and 20 years later, a series of bizarre decapitation/arson murders commenced in the gold-gutted Yukon. Canadian serial murder specialist Lee Mellor takes a look at these slayings, along with providing nail-biting articles on America's most infamous unsolved serial murder case, the Zodiac Killer of San Francisco, as well as the Montreal Child Murders: a spate of tragic pedophile killings which plagued the city throughout the Eighties. Another Franco-American cultural centre was shaken to the core between 1918-1919, when the shadowy Axeman of New Orleans slashed and bludgeoned unsuspecting Italian couples in their beds. Grinning Man Press co-founder Aaron Elliott tells of this jazz-happy native of Tartarus, and his possible (but improbable) connection to organized crime. The mob also appear as unlikely suspects in prolific author Michael Newton's The Mad Butcher of Kingsbury Run. Set against the backdrop of prohibition-era Cleveland, a seemingly-bisexual butcher left at least 10 victims dismembered and disfigured in and around the city while legendary detective Eliot Ness faltered in his attempts to capture the perpetrator. In more recent events, Robert Hoshowsky and Kim Cresswell reveal the details of intriguing serial murder mysteries on America's two coasts: California's menacing Golden State Killer (aka the Original Night Stalker) and New York's Long Island

Serial Killer. Considering how many of these offenders may still be at large and lurking in a community near you, Grinning Man Press warns that "Unsolved in North America" may destabilize your sense of personal security, result in intense fear and paranoia, and lead you to invest great quantities of money in alarm systems, intricate locks, and firearms.

**Kill 'Em All** - Ryan Green 2019-07-09

"I have no desire whatever to reform myself. My only desire is to reform people who try to reform me. And I believe that the only way to reform people is to kill 'em. My motto is, Rob em all, Rape em all and Kill em all." - Carl Panzram In 1902, at the age of 11, Carl Panzram broke into a neighbour's home and stole some apples, a pie, and a revolver. As a frequent troublemaker, the court decided to make an example of him and placed him into the care of the Minnesota State Reform School. During his two-year detention, Carl was repeatedly beaten, tortured, humiliated and raped by the school staff. At 15-years old, Carl enlisted in the army by lying about his age but his career was short-lived. He was dishonourably discharged for stealing army supplies and was sent to military prison. The brutal prison system sculpted Carl into the man that he would remain for the rest of his life. He hated the whole of mankind and wanted revenge. When Carl left prison in 1910, he set out to rob, burn, rape and kill as many people as he could, for as long as he could. His campaign of terror could finally begin and nothing could stand in his way. Kill 'Em All is a chilling and gripping account of one of the most brutal and gruesome true crime stories in American history. Ryan Green's riveting narrative draws the reader into the real-live horror experienced by the victims and has all the elements of a classic thriller. CAUTION: This book contains descriptive accounts of abuse and violence. If you are especially sensitive to this material, it might be advisable not to read any further

Upon entering the penitentiary, Panzram mentioned to the Warden that he would kill the first person who bothered him. **On the Farm** - Stevie Cameron 2010-08-13

Verteran investigative journalist Stevie Cameron first began following the story of missing women in 1998, when the odd newspaper piece appeared chronicling the disappearances of drug-addicted sex trade workers from Vancouver's notorious Downtown Eastside. It was not until February 2002 that pig farmer Robert William Pickton would be arrested, and 2008 before he was found guilty, on six counts of second-degree murder. These counts were appealed and in 2010, the Supreme Court of Canada rendered its conclusion. The guilty verdict was upheld, and finally this unprecedented tale of true crime could be told. Covering the case of one of North America's most prolific serial killers gave Stevie Cameron access not only to the story as it unfolded over many years in two British Columbia courthouses, but also to information unknown to the police - and not in the transcripts of their interviews with Pickton - such as from Pickton's long-time best friend, Lisa Yelds, and from several women who survived terrifying encounters with him. Cameron uncovers what was behind law enforcement's refusal to believe that a serial killer was at work.

Prison Life Writing - Simon Rolston 2021-06-30

Prison Life Writing is the first full-length study of one of the most controversial genres in American literature. By exploring the complicated relationship between life writing and institutional power, this book reveals the overlooked aesthetic innovations of incarcerated people and the surprising literary roots of the U.S. prison system. Simon Rolston observes that the autobiographical work of incarcerated people is based on a conversion narrative, a story arc that underpins the concept of prison rehabilitation and that sometimes serves the interests of the prison system, rather than those on the inside. Yet many imprisoned people rework the conversion narrative the way they repurpose other objects in prison. Like a radio motor retooled into a tattoo gun, the conversion narrative has been redefined by some authors for subversive purposes, including questioning the ostensible emancipatory role of prison

writing, critiquing white supremacy, and broadly reimagining autobiographical discourse. An interdisciplinary work that brings life writing scholarship into conversation with prison studies and law and literature studies, *Prison Life Writing* theorizes how life writing works in prison, explains literature's complicated entanglements with institutional power, and demonstrates the political and aesthetic innovations of one of America's most fascinating literary genres.

*An End To Murder* - Colin Wilson 2015-09-24

Creatively and intellectually there is no other species that has ever come close to equalling humanity's achievements, but nor is any other species as suicidally prone to internecine conflict. We are the only species on the planet whose ingrained habit of conflict constitutes the chief threat to our own survival. Human history can be seen as a catalogue of cold-hearted murders, mindless blood-feuds, appalling massacres and devastating wars, but, with developments in forensic science and modern psychology, and with raised education levels throughout the world, might it soon be possible to reign in humanity's homicidal habits? Falling violent crime statistics in every part of the world seem to indicate that something along those lines might indeed be happening. Colin and Damon Wilson, who between them have been covering the field of criminology for over fifty years, offer an analysis of the overall spectrum of human violence. They consider whether human beings are in reality as cruel and violent as is generally believed and they explore the possibility that humankind is on the verge of a fundamental change: that we are about to become truly civilised. As well as offering an overview of violence throughout our history? from the first hominids to the twenty-first century, touching on key moments of change and also indicating where things have not changed since the Stone Age? they explore the latest psychological, forensic and social attempts to understand and curb modern human violence. To begin with, they examine questions such as: Were the first humans cannibalistic? Did the birth of civilisation also lead to the invention of war and slavery? Priests and kings brought social stability, but were they also the instigators of the first mass murders? Is it in fact wealth that is the ultimate weapon? They look at slavery and ancient Roman sadism, but also the possibility that our own distaste for pain and cruelty is no more than a social construct. They show how the humanitarian ideas of the great religious innovators all too quickly became distorted by organised religious structures. The book ranges widely, from fifteenth-century Baron Gilles de Rais, 'Bluebeard?', the first known and possibly most prolific serial killer in history, to Victorian domestic

murder and the invention of psychiatry and Sherlock Holmes and the invention of forensic science; from the fifteenth-century Taiping Rebellion in China, in which up to 36 million died to the First and Second World Wars and more recent genocides and instances of 'ethnic cleansing?', and contemporary terrorism. They conclude by assessing the very real possibility that the internet and the greater freedom of information it has brought is leading, gradually, to a profoundly more civilised world than at any time in the past.

Pain, torment, and torture. Cruelty, brutality, and violence. The twisted psyches, murder. and yes, even the ability to charm people. Take a deep dive into the terrifyingly real serial murderers, spree killers, and true faces of evil! They prey on the innocent with a malicious desire to inflict damage and harm. They hunt and stalk misfortunate victims in the dark, in broad daylight, in quiet neighborhoods, and in the local woods. Their bloodthirst isn't satisfied after their first kill. Or their second. Or third. *Serial Killers: The Minds, Methods, and Mayhem of History's Most Notorious Murderers* delves into the global phenomenon of serial and spree murderers. This chilling book looks at the horrifying stories of forty malevolent killers and hundreds of innocent victims, including such notorious homicidal maniacs as John Wayne Gacy, Ted Bundy, and Jeffery Dahmer, but it also looks at lesser-known and overlooked murderers like Herbert Baumeister, America's I-70 Strangler; Japan's "Anime Killer," Tsutomu Miyazaki; Russia's "Rostov Ripper," Andrei Chikatilo; the "Giggling Granny," Nannie Doss; and many more. It journeys to 16th-century Scotland to meet a clan of cannibals whose existence is still debated by historians today, and to the fog-shrouded alleys of Whitechapel, London, where Jack the Ripper earned his grisly namesake. Along the way, we'll meet the Dating Game Killer, the Milwaukee Cannibal, the Acid Bath Murderer, and other monsters. *Serial Killers* also asks the questions ... What makes a seemingly ordinary person stalk, torture, and murder their fellow human beings? Are serial killers born or made? What is the difference between a serial killer and a spree killer? What were the identities of Jack the Ripper and the Zodiac Killer? Was Albert DeSalvo really the Boston Strangler? Is it possible that you could know a serial killer? Caution is advised before entering the alarming world of twisted psychos and sociopaths! With more than 120 photos and graphics, this fright-filled tome is richly illustrated. Its helpful bibliography and extensive index add to its usefulness.
