Sam's Scrapbook - Sam Posey 2021-08-24

Sam Posey raced a huge variety of sports cars, saloons and open-wheel machines in numerous racing arenas -- Can-Am, USRRC, Trans-Am, IMSA, Indy, NASCAR, Formula 5000 and Formula 1 -- against rivals and friends such as George Follmer, Parnelli Jones, Mark Donohue, Peter

Revson, Dan Gurney, David Hobbs and Brian Redman. Sam's Scrapbook gives a first-hand account of a romantic era in racing, through pictures no one has seen and stories no one has heard. Running alongside the images, Posey's commentary is fascinating and thoughtful, and in turns both amusing and emotional. Sam's early days: racing around his mother's house on a farm in Connecticut against his friend John Whitman. The start of his career: driving at Lime Rock, his local track, under the mentorship of John Fitch; a ride as the then-youngest American at Le Mans, with a Bizzarrini in 1966. Can-Am: racing against John Surtees, Bruce McLaren and Jim Hall in this famous "anything goes" sports car championship with a car he and Ray Caldwell designed and built. Trans-Am: competing in this spectacular saloon series during its golden age, first for Roger Penske and then as a factory driver for Dodge, against George Follmer, Parnelli Jones and Swede Savage. Later years at Le Mans: finishing third overall in a Ferrari 512 M with the North American Racing Team (NART) team in 1971; driving the first BMW 3.0 CSL 'Art Car' in 1975, featuring a paint scheme by American sculptor Alexander Calder. Open-wheel racing: a duel with Dan Gurney in the USAC Championship, finishing fifth at Indy in 1972; two drives for John Surtees in Formula 1; battling his friend and rival David Hobbs on the track and off in Formula 5000. Even more variety: three years of off-road adventures in the Baja 1000; rides with the BMW factory team at Sebring and Daytona; and his late career in the IMSA championship with actor Paul Newman and Brian Redman. This is an unusual and engaging memoir by one of America's best-loved racing heroes and will appeal to all motorsports enthusiasts.

How to Build Affordable Hot Rods - Tony Thacker
2020-12-01

Learn how to build an affordable hot rod following the advice of the masters! In *How to Build Affordable Hot Rods*, author and lifelong hot rod aficionado Tony Thacker takes you through the process of building a hot rod on a budget. Drawing on his own extensive experience of both buying and building rods, Thacker explores the good, the bad, and the ugly. The good was setting a land speed record at Bonneville, the bad was buying a rod from which the previous owner had "swapped out" the good engine, and the ugly--well, let's just not go there. *How to Build Affordable Hot Rods* includes extensive how-to sections that cover step-by-step chassis builds for Model A, 1932, and 1936 Fords, including front- and rear-end setups. The in-depth chassis builds are complimented with sections on powertrain choices, bodywork and roof chops, wheels and tires, and wiring and paint. Also included are chapters on interiors and the all-important details that individualize any project to ensure that it stands out from the rest. When Henry Ford introduced his beloved Model T, he unwittingly gave the average person the means to go racing. Prior to the T, racing was mostly a sport of the rich, but that changed with the Model T. Stripped of fenders and hopped up with speed parts, T speedsters ruled, and it wasn't long before enthusiasm on the track translated to the street and the term hot rod entered the vernacular. Of course, it didn't need to be a Ford (and still doesn't), but the easiest and therefore cheapest route to Hot Rod Boulevard is down the Ford road. The journey accelerated after World War II, as hot rodding boomed with the growth of speed shops, car shows, drag racing, talented and trained GIs returning

home, and the launch of Hot Rod magazine to spread the gospel far and wide. More than 100 years after the original Model T, hot rodding remains alive and well in the Australasia, Europe, and (of course) its birthplace the US.

Learn from the best and get started building your affordable hot rod today!

The American Speed Shop - Bob McClurg

2021-02-15

The history of hot rodding and performance cars has been well chronicled through the years. Books and magazines have covered the cars, builders, pioneers, engineers, early racers, muscle cars, street racers, etc. Most take a nostalgic and fun look at the cars that many have loved their entire lives. Some even cover the lifestyle, the hobby as it involves people, and the effort, time, and commitment people put into it. It is more than just a hobby to most, and to many, a certain wave of nostalgia comes over them when remembering what the car scene was like "back in the day." The local speed shop is an important element of the nostalgic feeling that people have when fondly remembering their hot rodding youth. Speed shops were not just parts stores, they were a communal gathering place for car guys wanting to talk smart, bench race, and catch up on the local scene, as well as to solicit the expert advice from the owner or staff behind the counter. Here, longtime hot rodder and industry veteran Bob McClurg brings you the story of the era and the culture of speed shops as told through individual shop's histories and compelling vintage photography. He covers the birth of the industry, racing versus hot rodding, mail-order, and advertising wars. You learn about the performance boom of the 1960s and 1970s, lost speed shops as well as survivors, and a overview of the giant mail-order speed shops of today.
