Spiritual Exercises - Saint Gertrude
(the Great) 1989

Why China did not have a Renaissance
- and why that matters - Thomas

Maissen 2018-06-25

Concepts of historical progress or decline and the idea of a cycle of historical movement have existed in many civilizations. In spite of claims that they be transnational or even universal, periodization schemes invariably reveal specific social and cultural predispositions. Our dialogue, which brings together a Sinologist and a scholar of early modern History in Europe, considers periodization as a historical phenomenon, studying the case of the "Renaissance." Understood in the tradition of J. Burckhardt, who referred back to ideas voiced by the humanists of the 14th and 15th centuries, and focusing on the particularities of humanist dialogue which informed the making of the

"Renaissance" in Italy, our discussion highlights elements that distinguish it from other movements that have proclaimed themselves as "r/Renaissances," studying, in particular, the Chinese Renaissance in the early 20th century. While disagreeing on several fundamental issues, we suggest that interdisciplinary and interregional dialogue is a format useful to addressing some of the more far-reaching questions in global history, e.g. whether and when a periodization scheme such as "Renaissance" can fruitfully be applied to describe non-European experiences.

Witchcraft, Magic & Alchemy - Grillot
de Givry 1971-01-01

Prints, drawings, documents, and text illuminate the development of the occult sciences to the nineteenth century

*Creating and Digitizing Language
Corpora* - J. Beal 2007-07-12

A range of electronic corpora has

Downloaded from ect2018.fpu.edu.py
on by guest

become accessible via the WWW and CD-ROM. This coincides with improvements in standards governing the collecting, encoding and archiving of such data. This book develops similar standards for enriching and preserving 'unconventional' data: the fragmentary texts and voices left to us as accidents of history.

The Genesis of Science - James Hannam
2011-03-22

The Not-So-Dark Dark Ages What they forgot to teach you in school: People in the Middle Ages did not think the world was flat The Inquisition never executed anyone because of their scientific ideologies It was medieval scientific discoveries, including various methods, that made possible Western civilization's "Scientific Revolution" As a physicist and historian of science James Hannam debunks myths of the Middle Ages in his brilliant book The Genesis of Science: How the Christian Middle Ages Launched the Scientific

Revolution. Without the medieval scholars, there would be no modern science. Discover the Dark Ages and their inventions, research methods, and what conclusions they actually made about the shape of the world.

Hildegard of Bingen - Maud Burnett McInerney
2013-08-21

First Published in 1998. Routledge is an imprint of Taylor & Francis, an informa company.

Linguistic Analysis - Annarita Puglielli
2011-03-29

This book reconsiders the classic topics of linguistic analysis and reflects on universal aspects of language from a typological and comparative perspective. The aim is to show the crucial interactions which occur at the different levels of grammar (phonology, morphology, lexicon, syntax and pragmatics), illustrating their various roles in the structural organization of the sentence and exploring how interface relations contribute to yield

interpretation in typologically different languages. The structural analysis is set within the Generative framework of grammar, though theoretical tenets are the outcome, rather than the starting point, of a study based on the observation of data. As the basic intent is to show different phenomena across a wide range of languages, a 'semi-guided' method has been adopted in order to facilitate comprehension and assist the reader in the identification of language universals. For every topic, the discussion of previous literature is followed by cross-linguistic evidence so that theory can be checked against data and the relevant generalizations drawn. Ultimately, this approach reveals that grammar is based on a very limited number of universal principles, which operate yielding different effects at the different levels of the grammar. It implies that a real understanding of the language-system can only be

derived from a comparative analysis in which the notion of interface plays a crucial role. The seven chapters in the volume deal with categories and functions, argument structure, syntactic functions, the structure of noun phrases, adverbial modification, information structure and illocutive force. Throughout, the observation of data from 74 languages is a crucial element in the formulation and understanding of theoretical tenets. This book is highly recommended for researchers and students interested in formal analysis from a typological, comparative perspective.

Andreas Capellanus on Love - Andreas Capellanus 1993-09-02

The De Amore of Andreas Capellanus (André the Chaplain), composed in France in the 1180s, is celebrated as the first comprehensive discussion of theory of courtly love. The book is believed to have been intended to portray conditions at Queen Eleanor

of Aquitaine's court at Poitiers between 1170 and 1174, and written the request of her daughter, Countess Marie of Troyes. As such, it is important for its connections to themes of contemporary Latin lyric, in troubadour poetry and in the French romances of Chrétien de Troyes. Thereafter its influence spread throughout Western Europe, so that the treatise is of fundamental importance for students of medieval and renaissance English, French, Italian and Spanish. In this comprehensive edition, P.G. Walsh includes Trojel's Latin text with his own facing English translation with explanatory notes, commentary and indexes, along with introduction which sets the treatise in its contemporary context and assesses its purpose and importance.

The Gangster - Clive Cussler

2016-03-24

Join Private Detective Isaac Bell as he navigates the seedy back alleys of

New York, in the ninth book in the action-packed series from Sunday Times bestseller Clive Cussler. Crime, corruption and murder. . . a vicious organisation is terrorising the city and only one man can stop them. THE PERPETRATORS It is 1906 and in New York City the Italian crime group known as the Black Hand is on a menacing spree: kidnapping, extortion, arson. THE INVESTIGATOR Detective Isaac Bell of the Van Dorn Agency is hired to form a special "Black Hand Squad," but the gangsters appear to be everywhere. So much so that Bell begins to wonder if there are imitator mobs emerging, other criminals using the Black Hand name to further terrorise the city. WHERE WILL IT LEAD? But then the murders begin, each one of a man more powerful than the last. Bell knows that copycat or not he's facing a lethal organisation, and to his dismay their ultimate target may be the most powerful man of all. ***

Ildegarda di Bingen. Storia di una
santità iniziatica - Michele
Proclamato 2017

Spiegel Von Arkadien - Franz Xaver
Sumayr 2018-10-16

This work has been selected by
scholars as being culturally
important and is part of the
knowledge base of civilization as we
know it. This work is in the public
domain in the United States of
America, and possibly other nations.
Within the United States, you may
freely copy and distribute this work,
as no entity (individual or
corporate) has a copyright on the
body of the work. Scholars believe,
and we concur, that this work is
important enough to be preserved,

reproduced, and made generally
available to the public. To ensure a
quality reading experience, this work
has been proofread and republished
using a format that seamlessly blends
the original graphical elements with
text in an easy-to-read typeface. We
appreciate your support of the
preservation process, and thank you
for being an important part of
keeping this knowledge alive and
relevant.

From Intellect to Intuition - Alice
A. Bailey 1972

The development of the intellect,
while necessary, is a means to an
end. The intellect should become a
means of penetrating into new
dimensions of thought and
consciousness, and of awakening the
intuitive faculty of "pure reason".
Through occult meditation the gap is
bridged between the threefold mind
and the intuition.

Language and Information - Zellig
Sabbettai Harris 1988-01

Books, Banks, Buttons - Chiara Frugoni 2005

Identifies the technological innovations of the middle ages, noting how such ubiquitous items as eyeglasses, books, arabic numbers, underwear, banks, the game of chess, clocks, and domesticated cats came into being during the period.

Get Us Out of Here!! - Nicky Eltz 2002-12-01

Dear Reader, What you are now holding is a most interesting book. The world beyond is speaking. It is offering advice, asking for help and giving answers. It exists and speaks about life -- our life here on earth and of possible consequences of our behaviour. It tells us that it is not the same to be humble, loving, good, merciful, loyal and honest as it is to be proud, loveless, bad, merciless, betraying and dishonest. At death this is not forgotten but rather remembered in total clarity. Not only is the punishment, or better

yet the cleansing, spoken about; but also the length of this cleansing is so very much more. Then you ask yourself, is it possible? In the Catholic church one speaks about a transitory state which for a very long time has been referred to as Purgatory. Despite there being different theories, this state is always taken seriously. One needs it because one can only come before God cleansed and pure.

The Girl in the Fog - Donato Carrisi 2018-08-24

Night Conversations with Cardinal Martini: The Relevance of the Church for Tomorrow - Carlo Maria Martini 2014-05-14

Carlo M. Martini was cardinal of the largest diocese in the world, a scholar, and one of the most renowned men of the church. Georg Sporschill has worked in prisons and lived with drug-addicted street children in Romania and Moldavia. The two Jesuits

met in Jerusalem and became friends: two worlds, one faith--and a passionate search for ways in which the message of Jesus of Nazareth can still be effective for tomorrow. In a series of conversations they ask what faith can mean for life, what future young people have in the church, and what must be changed so that Christianity itself has a future. The questions from young people are the catalyst for deep thought. Is the future only dark? Where are the rays of light on the horizon? What would Jesus say today?

Chernobyl 01 - Andrew Leatherbarrow
2016-04-26

The Necessary Angel - Massimo Cacciari 1994-01-01
Cacciari, academic (aesthetics, U. of Venice) and mayor of Venice as of 1993, surveys the history of angels in Judaic, Islamic, and Christian traditions; and how Dante, Rilke, Kafka, and other writers have used

the metaphor of angels to speak about the phenomenology of language.

Translated from the
Gender, Power and Privilege in Early Modern Europe - Penny Richards
2014-07-30

Surveying court life and urban life, warfare, religion, and peace, this book provides a comprehensive history of how gender was experienced in early modern Europe. *Gender, Power and Privilege in Early Modern Europe* shows how definitions of sexuality and gender roles operated and more particularly, how such definitions--and the activities they generated and reflected--articulated concerns inside a given culture. This means that the volume embodies an interdisciplinary approach: literature as well as history, religious studies, economics, and gender studies form the basis of this cultural history of early modern Europe. There are new approaches to understanding famous figures, such as

Elizabeth I, James VI and I and his wife Anna of Denmark; Francis I; St. Teresa of Avila. Other chapters investigate topics such as militarism and court culture, and wider groups, such as urban citizens and noble families. The collection also studies ways in which gender and sexual orientation were represented in literature, as well as examinations of the theoretical issues involved in studying history from the angle of gender.

Christianity, Truth, and Weakening

Faith - Gianni Vattimo 2010-02-16
The debate over the place of religion in secular, democratic societies dominates philosophical and intellectual discourse. These arguments often polarize around simplistic reductions, making efforts at reconciliation impossible. Yet more rational stances do exist, positions that broker a peace between relativism and religion in people's public, private, and ethical lives.

Christianity, Truth, and Weakening Faith advances just such a dialogue, featuring the collaboration of two major philosophers known for their progressive approach to this issue. Seeking unity over difference, Gianni Vattimo and René Girard turn to Max Weber, Eric Auerbach, and Marcel Gauchet, among others, in their exploration of truth and liberty, relativism and faith, and the tensions of a world filled with new forms of religiously inspired violence. Vattimo and Girard ultimately conclude that secularism and the involvement (or lack thereof) of religion in governance are, in essence, produced by Christianity. In other words, Christianity is "the religion of the exit from religion," and democracy, civil rights, the free market, and individual freedoms are all facilitated by Christian culture. Through an exchange that is both intimate and enlightening, Vattimo and Girard share their unparalleled

insight into the relationships among religion, modernity, and the role of Christianity, especially as it exists in our multicultural world.

The Joy of Believing - Madeleine Delbr el 1993

World Music: A Very Short Introduction - Philip V. Bohlman
2002-05-30

'World music' emerged as an invention of the West from encounters with other cultures. This book draws readers into a remarkable range of these historical encounters, in which music had the power to evoke the exotic and to give voice to the voiceless. In the course of the volume's eight chapters the reader witnesses music's involvement in the modern world, but also the individual moments and particular histories that are crucial to an understanding of music's diversity. World Music is wide-ranging in its geographical scope, yet individual chapters

provide in-depth treatments of selected music cultures and regional music histories. The book frequently zooms in on repertoires and musicians - such as Bob Marley, Bartok, and Nusrat Fateh Ali Khan - and attempts to account for world music's growing presence and popularity at the beginning of the twenty-first century. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

The Mystery of Christian Worship - Odo Casel 1999

"A Herder & Herder book." Includes bibliographical references and index.

The Rule of the Master - 1977

Three times longer than the Rule of

Saint Benedict and in parts identical to it, the Regula Magistri encompasses the entire existence, material and spiritual, of the monastic community and its members. First English translation.

The Reformation of the Twelfth Century - Giles Constable 1998-05-28
A study of the changes in religious thought and institutions c. 1180-c. 1280.

The Origins of the University - Stephen C. Ferruolo 1985-06
The University of Paris is generally regarded as the first true university, the model for others not only in France but throughout Europe, including Oxford and Cambridge. This book challenges two prevailing myths about the university's origins: first, that the university naturally developed to meet the utilitarian and professional needs of European society in the late Middle Ages, and second, that it was the product of the struggle by scholars to gain

freedom and autonomy from external authorities, most notably church officials. In the twelfth century, Paris was the educational center of Europe, with a large number of schools and masters attracting and competing for students. Over the decades, the schools of Paris had many critics--monastic reformers, humanists, satirists, and moralists--and the focus of this book is the role such critics played in developing the schools into a university. Ferruolo argues that it was the educational values and ideas promoted by the critics--ideas of the unity of knowledge, the need to share learning freely and willingly, and the higher purposes and social importance of education--that first inspired the scholars of Paris to join together to form a single guild. Their programs for educational reforms can be seen in the first set of statutes promulgated for the nascent University of Paris in 1215.

Historical Atlas of Medieval Music -
Vera Minazzi 2020-11-03

Music is rooted in the heart of Western culture. The absence of music from the usual publications of medieval history and history of art of the Middle Ages is understandable, considering the rarity of sources. And yet, throughout the last decades, an intense activity of historico-musicological research has been carried out internationally by a select group of specialized scholars. The ambitious goal of this work is to set medieval music within its historical and cultural context and to provide readers interested in different disciplines with an overall picture of music in the Middle Ages; multi-faceted, enjoyable, yet scientifically rigorous. To achieve this goal, the most prominent scholars of medieval musicology were invited to participate, along with archaeologists, experts of acoustics and architecture, historians and

philosophers of medieval thought. The volume offers exceptional iconography and several maps, to accompany the reader in a fascinating journey through a network of places, cultural influences, rituals and themes.

Medieval Women Writers - Katharina M. Wilson 1984

This is one of the first anthologies devoted to the writings of women in the Middle Ages. The fifteen women whose works are represented span seven centuries, eight languages, and ten regions or nationalities. Many are recognized, taught, and anthologized in their own countries but have been inaccessible to students in English. Others are little read today because their literary fortunes have paralleled fluctuations in literary taste and literary patronage. Katharina M. Wilson's introduction to the volume places these writers in historical context and explores the question of the female imagination and who these

women were who were writing at a time when very few women were literate and most literature, sacred and secular, was penned by men. Each of the fifteen chapters has been written by a different scholar and includes a biographical and critical introduction to the writer, a representative selection of her works in translation, and a bibliography.

Ecstatic Confessions - Martin Buber
1996-11-01

Ecstatic Confessions orchestrates these reports from the edge of human experience into a revealing look at the nature of the ecstatic experience itself and the tension arising from the mystic's compelling need to give witness to an event that can never truly be verbalized.

Life of St. Francis of Assisi - Paul Sabatier 1917

Jesus Forsaken - Hubertus Blaumeiser

Middle-aged Women in the Middle Ages

- Sue Niebrzydowski 2011

New research into medieval women from the Anglo-Saxon to the late medieval period demonstrates their energy, defiance and wit.

Hildegard of Bingen - Sabina Flanagan
2002-01-04

Drawing on contemporary sources, the text unfolds Hildegard's life from the time of her entrance into an anchoress's cell--where a woman would remain in pious isolation--to her death as a famed visionary and writer, abbess and confidante of popes and kings, more than seventy years later. Against this background the author explores Hildegard's vast creative work, encompassing theology, medicine, natural history, poetry, and music.

For the Sake of Learning - Ann Blair
2016-06-27

In this tribute to Anthony Grafton, fifty-eight contributors present new research across the many areas in which Grafton has been active in the

history of scholarship and learned culture.
Narrative and Legislative Texts from Early Cîteaux - Chrysogonus Waddell
1999

Saint Benedict and the Sixth Century
- John Chapman 1929

Four Women Doctors of the Church -

Malone, Mary T. 2017-08-17
This timely and engrossing work brings to life the trials and triumphs of four inspiring women, Hildegard of Bingen, Catherine of Siena, Teresa of Avila, and Therese of Lisieux, whose bravery and intellectual prowess opened the door for new discussions on the role of women in the Church.
