**Get the Hell Out of Debt** - Erin Skye Kelly 2021-07-20  
Erin Skye Kelly wrote Get the Hell Out of Debt after her own struggle to become consumer-debt free. She was tired of listening to middle-aged men in suits tell her to consolidate and refinance her debt when all that seemed to happen was she'd end up in more of it while they profited from it. When Kelly figured out the two most important tools to money management—and started achieving massive results—other women wanted to join in on the debt-free journey. With her sense of humor and straight-shooting sensibilities, Erin began transforming lives. This book is not only a step-by-step process that will walk you through how to pay off your debt—it's a deeply personal journey centered around changing your mindset. As you master each of the three phases through repetition, you will create your own financial freedom, allowing you to live debt-free forever and create wealth and abundance that will positively impact your life—and the people you love and serve. No matter how much consumer debt you

carry, this book is a judgment-free zone from cover-to-cover. Your dreams are welcome here.

*dfree* - DeForest B Soaries, Jr. 2011-02-01

*dfree*™. No debt, no deficits, and no delinquencies. Drawing on his years of experience as a pastor, public policy maker, and community leader, DeForest "Buster" Soaries, Jr. shares the four vital keys to debt-free living in this groundbreaking, life-changing new approach. "The idea that we would be voluntary slaves is offensive to all of our sensibilities," says Soaries. "But when we continue to spend what we don't have, charge what we don't need, and borrow more than we can repay, then we must call the problem what it is: slavery." This is not another financial literacy program assuming that all people need is information. Soaries

believes living in debt is an emotional, spiritual, and psychological problem as much as it is an educational and informational one. Here, Soaries shares the four vital keys to debt-free living that have helped hundreds of families in his church get out of debt. By replacing the "get more money" mentality with a "get out of debt" approach to financial freedom, not only were hundreds of people able to go debt free, his church's offerings increased by \$1 million dollars--during the recession. Find out how you can leave a financial legacy of your own by saying yes to no debt. Says Soaries: "There may be no greater need than to understand the value and joy of debt-free living. There may be no greater legacy we can leave our children."

Concepts of Conversion - Lars Kirkhusmo Pharo 2017-12-18

There has not been conducted much research in religious studies and (linguistic) anthropology analysing Protestant missionary linguistic translations. Contemporary Protestant missionary linguists employ grammars, dictionaries, literacy campaigns, and translations of the Bible (in particular the New Testament) in order to convert local cultures. The North American institutions SIL and Wycliffe Bible Translators (WBT) are one of the greatest scientific-evangelical missionary enterprises in the world. The ultimate objective is to translate the Bible to every language. The author

has undertaken systematic research, employing comparative linguistic methodology and field interviews, for a history-of-ideas/religions and epistemologies explication of translated SIL missionary linguistic New Testaments and its premeditated impact upon religions, languages, sociopolitical institutions, and cultures. In addition to taking into account the history of missionary linguistics in America and theological principles of SIL/WBT, the author has examined the intended cultural transformative effects of Bible translations upon cognitive and linguistic systems. A theoretical analytic model of conversion and translation has been put forward for comparative research of religion, ideology, and knowledge systems.

*Toward an Anthropological Theory of Value* - D. Graeber  
2001-12-13

Now a widely cited classic, this innovative book is the first comprehensive synthesis of economic, political, and cultural theories of value. David Graeber reexamines a century of anthropological thought about value and exchange, in large measure to find a way out of ongoing quandaries in current social theory, which have become critical at the present moment of ideological collapse in the face of Neoliberalism. Rooted in an engaged, dynamic realism, Graeber argues that projects of cultural comparison are in a sense necessarily revolutionary projects: He attempts to synthesize the best insights of Karl Marx and Marcel Mauss, arguing that these figures represent two extreme, but ultimately complementary, possibilities in the shape such a project might take. Graeber breathes new life into the classic anthropological texts on exchange, value, and economy. He rethinks the cases of Iroquois wampum, Pacific kula exchanges, and the Kwakiutl potlatch within the flow of world historical processes, and recasts value as a model of human meaning-making, which far exceeds rationalist/reductive economist

paradigms.

*Millionaire by Thirty* - Douglas R. Andrew 2008-04-30

Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in *Millionaire by Thirty*, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

*The Mismeasure of Desire* - David E. Stannard 1993-11-18

For four hundred years--from the first Spanish assaults against the Arawak people of Hispaniola in the 1490s to the U.S. Army's massacre of Sioux Indians at Wounded Knee in the 1890s--the indigenous inhabitants of North and South America endured an unending firestorm of violence. During that time the native population of the Western Hemisphere declined by as many as 100 million people. Indeed, as historian David E. Stannard argues in this stunning new book, the European and white American destruction of the native peoples of the Americas was the most massive act of genocide in the history of the world. Stannard begins with a portrait of the enormous richness and diversity of life in the Americas prior to Columbus's fateful voyage in 1492. He then follows the path of genocide from the Indies to Mexico and

Central and South America, then north to Florida, Virginia, and New England, and finally out across the Great Plains and Southwest to California and the North Pacific Coast. Stannard reveals that wherever Europeans or white Americans went, the native people were caught between imported plagues and barbarous atrocities, typically resulting in the annihilation of 95 percent of their populations. What kind of people, he asks, do such horrendous things to others? His highly provocative answer: Christians. Digging deeply into ancient European and Christian attitudes toward sex, race, and war, he finds the cultural ground well prepared by the end of the Middle Ages for the centuries-long genocide campaign that Europeans and their descendants launched--and in places continue to wage--against the New World's original inhabitants. Advancing a thesis that is sure to create much controversy, Stannard contends that the perpetrators of the American Holocaust drew on the same ideological wellspring as did the later architects of the Nazi Holocaust. It is an ideology that remains dangerously alive today, he adds, and one that in recent years has surfaced in American justifications for large-scale military intervention in Southeast Asia and the Middle East. At once sweeping in scope and meticulously detailed, American Holocaust is a work of impassioned scholarship that is certain to ignite intense historical and moral debate.

**Passing to América** - Thomas A. Abercrombie 2019-07-16  
In 1803 in the colonial South American city of La Plata, Doña Martina Vilvado y Balverde presented herself to church and crown officials to denounce her husband of more than four years, Don Antonio Yta, as a “woman in disguise.” Forced to submit to a medical inspection that revealed a woman’s body, Don Antonio confessed to having been María Yta, but continued to assert his maleness and claimed to have a functional “member” that appeared, he said, when necessary. Passing to América is at once a historical biography and an in-depth examination of the sex/gender complex in an era before “gender” had been divorced from “sex.” The book presents readers with the original court docket, including Don Antonio’s extended confession, in which he tells his life story, and the equally extraordinary biographical sketch offered by Felipa Ybañez of her “son María,” both in English translation and the original Spanish. Thomas A. Abercrombie’s analysis not only grapples with how to understand the sex/gender system within the Spanish Atlantic empire at the turn of the nineteenth century but also explores what Antonio/María and contemporaries can teach us about the complexities of the relationship between sex and gender today. Passing to América brings to light a previously obscure case of gender transgression and puts Don Antonio’s life into its social and historical context in order to explore the meaning of “trans” identity in Spain and its American colonies. This accessible and intriguing study provides

new insight into historical and contemporary gender construction that will interest students and scholars of gender studies and colonial Spanish literature and history. *The Shape of Things to Come* - H.G. Wells 2005-05-26

When Dr Philip Raven, an intellectual working for the League of Nations, dies in 1930 he leaves behind a powerful legacy - an unpublished 'dream book'. Inspired by visions he has experienced for many years, it appears to be a book written far into the future: a history of humanity from the date of his death up to 2105. *The Shape of Things to Come* provides this 'history of the future', an account that was in some ways remarkably prescient - predicting climatic disaster and sweeping cultural changes, including a Second World War, the rise of chemical warfare, and political instabilities in the Middle East.

**The Man Who Saved New York** - Seymour P. Lachman 2010-07-01

A dramatic and colorful portrait of one of New York's most remarkable governors, Hugh L. Carey, with emphasis on his leadership during the fiscal crisis of 1975. *The Man Who Saved New York* offers a portrait of one of New York's most remarkable governors, Hugh L. Carey, with emphasis on his leadership during the fiscal crisis of 1975. In this dramatic and colorful account, Seymour P. Lachman and Robert Polner's examine Carey's youth, military service, and public career against the backdrop of a changing, challenged, and recession-battered city, state, and nation. It was Carey's leadership, Lachman and Polner argue, that helped rescue the city and state from the brink of financial and

social ruin. While TV comedians mocked and tabloids shrieked about the Big Apple's rising muggings, its deteriorating public services, and the threats and walkouts by embattled police, firefighters, and teachers, all amid a brutal recession, Carey and his team managed to hold on and ultimately prevailed, narrowly preventing a huge disruption to the state, national, and global economy. At one point, the city came within a few hours of having to declare itself incapable of paying its debts and obligations, but in the end stability and consensus prevailed, and America's largest city stayed out of bankruptcy court. The center held. Based on extensive interviews with Carey and his family, as well as numerous friends, observers, and former advisors, including Steven Berger, David Burke, John Dyson, Peter Goldmark, Judah Gribetz, Richard Ravitch, and Felix Rohatyn, *The Man Who Saved New York* aims to place Carey and his achievements at the center of the financial maelstrom that met his arrival in Albany. While others were willing to let the city go into default, Carey was strongly opposed, since it would not only affect the state as a whole but would have reverberations both nationally and internationally. In recounting the 1975 rescue of New York City and the aftershocks that nearly sank the state government, Lachman and Polner illuminate the often-volatile interplay among elite New York bankers, hard-nosed municipal union leaders, the press, and influential conservatives and liberals from City Hall to the Albany statehouse to the White House. Although often underappreciated by the public, it was Carey's force of will, wit, intellect, judgment, and experiences that allowed the state to survive this unparalleled ordeal and ultimately to emerge on a stronger footing. Further, Lachman and Polner argue, Carey's accomplishment is worth recalling as a prime example of how governments—local, state, and federal—can work to avoid the renewed threat of bankruptcy that now confronts many overstretched states and localities. Seymour P. Lachman served as President of the New York City Board of Education and University

Dean of the City University of New York before being elected to the New York State Senate, where he served five terms. He was consulting editor of *The United States in the Middle East* and was coauthor (with Barry A. Kosmin) of *One Nation Under God: Religion in Contemporary American Society* and (with Robert Polner) *Three Men in a Room: The Inside Story of Power and Betrayal in an American Statehouse*. He is currently Director of the Hugh L. Carey Institute for Government Reform at Wagner College, Staten Island, where he is also a Distinguished Professor in Residence. Robert Polner, a former award-winning reporter for *Newsday*, works as a public affairs officer for New York University and its Robert F. Wagner Graduate School of Public Service. He was the editor of *America's Mayor, America's President? The Strange Career of Rudy Giuliani*, and coauthor (with Seymour P. Lachman) of *Three Men in a Room: The Inside Story of Power and Betrayal in an American Statehouse*. He also cowrote (with Paul Schwartzman) *New York Notorious: A Borough-by-Borough Tour of the City Addicted to Shopping and Other Issues Women Have with Money* - Karen O'Connor 2005-04-01

**The Behavior Gap** - Carl Richards 2012-01-03

"It's not that we're dumb. We're wired to avoid pain and pursue pleasure and security. It feels right to sell when everyone around us is scared and buy when everyone feels great. It may feel right-but it's not rational." -From *The Behavior Gap* Why do we lose money? It's easy to blame the economy or the financial markets-but the real trouble lies in the decisions we make. As a financial planner, Carl Richards grew frustrated watching people he cared about make the same mistakes over and over. They were letting emotion get in the way of smart financial decisions. He named this phenomenon-the distance between what we should do and what

we actually do-"the behavior gap." Using simple drawings to explain the gap, he found that once people understood it, they started doing much better. Richards's way with words and images has attracted a loyal following to his blog posts for The New York Times, appearances on National Public Radio, and his columns and lectures. His book will teach you how to rethink all kinds of situations where your perfectly natural instincts (for safety or success) can cost you money and peace of mind. He'll help you to:

- Avoid the tendency to buy high and sell low;
- Avoid the pitfalls of generic financial advice;
- Invest all of your assets-time and energy as well as savings-more wisely;
- Quit spending money and time on things that don't matter;
- Identify your real financial goals;
- Start meaningful conversations about money;
- Simplify your financial life;
- Stop losing money! It's never too late to make a fresh financial start.

As Richards writes: "We've all made mistakes, but now it's time to give yourself permission to review those mistakes, identify your personal behavior gaps, and make a plan to avoid them in the future. The goal isn't to make the 'perfect' decision about money every time, but to do the best we can and move forward. Most of the time, that's enough."

**Build Yourself Up Without Limits** - Andrew Deutsch  
2020-11-07

Building Yourself up Without Limits a Strategy to win in all Areas of

Your Life will give you a new superpower for living life! The ideas are simple as well as the techniques in which to apply them. Acquiring love, success, and wealth all have their challenges that can pop up daily. When they do, they can drag us down under the weight of their stress. What you will learn in this book is about having the power to maintain and grow prosperity in all its forms one day at a time! Have you ever wondered what the core issue is that gets in the way of improving the choices we make in our daily lives? Fear! It's the main reason that our personal growth and transformations are slowed down and unfortunately for many, it is the main reason they give up on their dreams and aspirations all together. Why? Because we become paralyzed by our fear of the unknown. This kind of fear can raise its ugly head and hinder your career, creativity, relationships, money, or even your pursuit of success. Speaking about success, let's look at what the word success really means. In this book, I will teach you how simple it really is to achieve success because it's all about process. Yes, that's it: Process! If you make coffee with a used coffee filter from yesterday, I guarantee you will make an unsuccessful cup of coffee. However, use a new filter with fresh coffee grounds and you will create a successful cup of coffee. Just like making a quality cup of coffee is about the process, the outcome of our lives is all about the quality of our process. If you want to have an outstanding process for your health, career, or life in general, you must first overcome your fear. All motivational self-help books are about improving your process to find success and achieving your dreams! Sounds great, right? So, what's the problem and why are these books not successful in the long term? Because they don't offer the techniques to deal with fear in all its forms when it pops up, and folks, it pops up every day for everyone! Fear is like an enemy that has access to a 24 hour a day dressing room so it can emerge in various disguises at any time for any reason. It can appear in your head like a slacker voice saying, "Dude that report can wait till next week, let's just chill." Sometimes you may hear

its voice as a lawyer, "You have no chance of succeeding so why are you putting so much energy into this project?" Even the voice of a well-meaning relative, "Fat? Nah! Your just big boned. Have another slice of cheese cake!"
