**Hooked** - Nir Eyal 2014-11-04

Revised and Updated, Featuring a New Case Study How do successful companies create products people can't put down? Why do some products capture widespread attention while

others flop? What makes us engage with certain products out of sheer habit? Is there a pattern underlying how technologies hook us? Nir Eyal answers these questions (and many more) by explaining the Hook Model—a four-step process

embedded into the products of many successful companies to subtly encourage customer behavior. Through consecutive “hook cycles,” these products reach their ultimate goal of bringing users back again and again without depending on costly advertising or aggressive messaging. Hooked is based on Eyal’s years of research, consulting, and practical experience. He wrote the book he wished had been available to him as a start-up founder—not abstract theory, but a how-to guide for building better products. Hooked is written for product managers, designers, marketers, start-up founders, and anyone who seeks to understand how products influence our behavior. Eyal provides readers with:

- Practical insights to create user habits that stick.
- Actionable steps for building products people love.
- Fascinating examples from the iPhone to Twitter, Pinterest to the Bible App, and many other habit-forming products.

*The Hypothyroid Writer* - Sarah E. Lentz  
2016-11-09

Writing for a living can be enough of a challenge, but if you're living with thyroid dysfunction, you know it affects everything -- and it makes it all the harder to succeed as a writer. Are you struggling with low energy, brain fog, increased sensitivity, depression, or anxiety? Have you ever thought of writing a book, only to catch yourself thinking you're not likely to succeed with that when you can barely manage doing enough to survive?

Hypothyroidism can make it difficult to get a lot done each day, but if you'd like to learn not only

how to thrive in all areas of your life, but also how to get the right things done each day and become the powerful and prolific writer you were born to be, you need this book. If you're hypothyroid and worried about declining brain function, and you're looking for a book that will help you heal your brain and keep it healthy for as long as possible, read this book! The Hypothyroid Writer begins with an overview of the challenges posed by hypothyroidism for millions -- many of whom have discovered a passion for writing, because it helps them to cope with their symptoms. The second part of the book covers seven different habits and how they will heal your brain, give your creative genius the attention it deserves, and help you make the most of your passion for writing. This is more than a book, though; it's an invitation to connect with the author and with others on her blog who insist on thriving even when their thyroid treatment doesn't help as much as they'd like. There's plenty we can do on our own to

become healthier and to grow as writers. Join the team and share your own story -- where you are, what you've learned, and what you'd still like to do. Go ahead and click on the "Buy it now" button and open the door to a new world of thriving and creating. Begin practicing the seven habits described in this book, and see if they don't light a new fire in you to become the lively and unstoppable writer you know you can be.

**Still Howling** - Mary Dezember 2016-10-29

"I see the best souls of my sex thrive despite the madness, defiant Aphrodites rising above the sea, naked in their wakefulness, determined to love in the charge of night and the terror of the day . . ." With language both piercing and uplifting, Mary Dezember explores the importance of creative expression and of finding a voice in hurtful or oppressive situations and to question hegemony - with the realization that the embracing of life happens through the alchemy of forgiveness. Graced with cover art painted by her nephew, Steve Dezember II,

using his wheelchair, the book includes poems about or in tribute to courageous life-embracing innovators, such as Steve and his wife, Hope, Allen Ginsberg, Rosalind Franklin, and Georgia O'Keeffe. The title poem "Still Howling" and the poem "Endnote to Still Howling" are an homage to Allen Ginsberg and to his poems "Howl" and "Footnote to Howl," in celebration of their publication 60 years ago, in 1956, and a tribute to his publisher, City Lights Publishers, and to Allen's influences, namely Walt Whitman, but, as DeZember states in this collection, "mostly to Allen and what he gave us - the right to howl." "Still Howling" and "Endnote to Still Howling" are the First Place Winner of the Best Beat Poem Contest, 2016, sponsored by Beatlick Press. They were first published by the journal Cacti Fur.

**The Art of Being Human** - Michael Wesch  
2018-08-07

Anthropology is the study of all humans in all times in all places. But it is so much more than that. "Anthropology requires strength, valor, and courage," Nancy Scheper-Hughes noted. "Pierre Bourdieu called anthropology a combat sport, an extreme sport as well as a tough and rigorous discipline. ... It teaches students not to be afraid of getting one's hands dirty, to get down in the dirt, and to commit yourself, body and mind. Susan Sontag called anthropology a "heroic"

profession." What is the payoff for this heroic journey? You will find ideas that can carry you across rivers of doubt and over mountains of fear to find the the light and life of places forgotten. Real anthropology cannot be contained in a book. You have to go out and feel the world's jagged edges, wipe its dust from your brow, and at times, leave your blood in its soil. In this unique book, Dr. Michael Wesch shares many of his own adventures of being an anthropologist and what the science of human beings can tell us about the art of being human. This special first draft edition is a loose framework for more and more complete future chapters and writings. It serves as a companion to anth101.com, a free and open resource for instructors of cultural anthropology. This 2018 text is a revision of the "first draft edition" from 2017 and includes 7 new chapters.

**Getting the message through: A Branch History of the U.S. Army Signal Corps** -

Rebecca Robbins Raines 1996

Getting the Message Through, the companion volume to Rebecca Robbins Raines' Signal

Corps, traces the evolution of the corps from the appointment of the first signal officer on the eve of the Civil War, through its stages of growth and change, to its service in Operation DESERT SHIELD/DESERT STORM. Raines highlights not only the increasingly specialized nature of warfare and the rise of sophisticated communications technology, but also such diverse missions as weather reporting and military aviation. Information dominance in the form of superior communications is considered to be sine qua non to modern warfare. As Raines ably shows, the Signal Corps--once considered by some Army officers to be of little or no military value--and the communications it provides have become integral to all aspects of military operations on modern digitized battlefields. The volume is an invaluable reference source for anyone interested in the institutional history of the branch.

The great thing about a lined journal is you can make it into anything you want. A day timer, travel journal, diary, notebook for school, a place for your short stories, etc. If you need to write something down, a journal is the tool you need. If you want to use it for more than just a notepad then keep reading. Almost every successful person seems to have kept a journal in one form or another. Success in this case is not defined by money but overall happiness. Whether or not they called it journaling doesn't matter as they kept a record of their goals, success, failures, feelings and their daily life. Your journal contains the answers to your most burning questions. It is literally the best self-help book you could ever read because it is all about you. Just some of the benefits of journaling are: - Allows you to reflect on your life and the

changes you are choosing to make or not make - Clarifies your thinking and as Tony Robbins says "Clarity is Power" -Houses all your million dollar ideas that normally get lost in all the noise of life -Exposes repeated patterns of behaviors that get you the results you DON'T want -Acts as a bucket for you to brain dump in - a cluttered mind leads to a disorganized life -Revisits daily situations giving you a chance to look at it with a different perspective -Doesn't crash and lose everything you put into it like electronics (just like electronics though don't get it wet) You may want to keep multiple journals; one that contains your truest and most secret feelings that you guard heavily, but need a way to express. Another that contains all those fantastic ideas, creative endeavors, dreams and awesome goals. Maybe just something you doodle in. No matter how you use it getting into the daily habit of journaling has the potential to improve the quality of your life. Let's look past the simple fact you know how to physically write in a

journal and dig into how to actually use your journal. It might contain all the secrets to life's biggest problems but unless you know how to uncover those secrets they stay hidden away in your words. -Let the words flow from the heart and be filled with emotions, no holdbacks -Make a daily journaling schedule. Each and every day take the time to record your thoughts morning and night. If you love to type notes into your phone all day transfer them to your journal after. -Sit in a quiet spot and allow yourself to be emotionally and creatively free. Your journal is not a reason to turn yourself into an emotional punching bag. -Start small. You do not need to write a specific number of words. Just the right amount of honest words that let you feel a sense of being free from negativity and energized with possibility. -If you write in your journal like someone is going to read it, you will ever allow yourself to fully express what needs to be expressed. Write like no one will ever read it because it is likely no one ever will unless you

want them to. Write how you loved something, were mad at someone, wished something was different or anything you need to. Just do it. Start today writing in your journal. You could even put "Today I bought this awesome journal and will recommend all my friends do the same." At 6x9, WM Journals fit in most purses, totes and backpacks.
