

Bread And Circuses Historical Sociology And Political Pluralism

This is likewise one of the factors by obtaining the soft documents of this **Bread And Circuses Historical Sociology And Political Pluralism** by online. You might not require more mature to spend to go to the book creation as without difficulty as search for them. In some cases, you likewise complete not discover the message Bread And Circuses Historical Sociology And Political Pluralism that you are looking for. It will very squander the time.

However below, taking into consideration you visit this web page, it will be for that reason totally easy to acquire as capably as download lead Bread And Circuses Historical Sociology And Political Pluralism

It will not say you will many epoch as we tell before. You can complete it though law something else at house and even in your workplace. appropriately easy! So, are you question? Just exercise just what we allow below as competently as review **Bread And Circuses Historical Sociology And Political Pluralism** what you with to read!

Emotional Arenas - Mark Seymour 2020-04-02

Based on the records of a murder trial that transfixed all of Italy in the late 1870s, this study makes use of a dramatic court case to develop a new paradigm for the history of emotions - the 'emotional arena'. Set in the decade following Italian unification, the context was one of notable cultural variety. An as-yet unexplored aspect of this was that the experience and expression of emotions were as variable as the regions making up the new nation. Through a close examination of the spaces in which daily lives, loves, and deaths unfolded - from marital homes to places of socializing and entertainment, to a Roman court room - Mark Seymour explores the way social 'arenas' are crucial to the historical development of emotional cultural rules. The narrative is driven by the failed marriage of a decorated but allegedly impotent Risorgimento soldier, his wife's scandalous affair with a virile circus artiste (who had a string of previous lovers), and the illicit new couple's murder of the hapless husband. Hundreds of

witnesses - from local professionals to servants and even circus clowns - interviewed across the length and breadth of the peninsula, left their personal views on marriage, sexuality, and infidelity. These provide an extraordinary series of peepholes into little-known areas of the new nation's social fabric. A careful yet imaginative reading of the prosecution records, as well as contemporary newspaper coverage, allows reconstruction of the highly emotional experiences of all those touched by this extraordinary story. The result is a classic Italian micro-history with relevance for today's emotionally volatile times.

Western Historiography in Asia - Q. Edward Wang 2022-02-21

This volume provides a unique and critical perspective on how Chinese, Japanese and Korean scholars engage and critique the West in their historical thinking. It showcases the dialogue between Asian experts and their Euro-American counterparts and offers valuable insights on how to challenge and overcome Eurocentrism in historical writing.

Benefactors and the Polis - Marc Domingo Gygax 2020-12-31
Historians generally study elite public gift-giving in ancient Greek cities as a phenomenon that gained prominence only in the Hellenistic and Roman imperial periods. The contributors to this volume challenge this perspective by offering analyses of various manifestations of elite public giving in the Greek cities from Homeric times until Late Antiquity, highlighting this as a structural feature of polis society from its origins in the early Archaic age to the world of the Christian Greek city in the early Byzantine period. They discuss existing interpretations, offer novel ideas and arguments, and stress continuities and changes over time. Bracketed by a substantial Introduction and Conclusion, the volume is accessible both to ancient historians and to scholars studying gift-giving in other times and places.

The Spirit as Gift in Acts - John D. Griffiths 2022-02-28
The Holy Spirit, being given as a gift in the opening chapters of Acts, initiates and sustains the early Jesus community, empowering their teaching, unity, meals, sharing of possessions and worship.

Security, Territory, Population - M. Foucault 2007-03-28
This book derives from Foucault's lectures at the College de France between January and April 1978, which can be seen as a radical turning point in his thought. Focusing on 'bio-power', he studies the foundations of this new technology of power over population and explores the technologies of security and the history of 'governmentality'.

Greek Athletics in the Roman World - Zahra Newby 2005-10-07
The enduring importance of Greek athletic training and competition during the period of the Roman Empire has been a neglected subject in past scholarship on the ancient world. This book examines the impact that Greek athletics had on the Roman world, approaching it through the plentiful surviving visual evidence, viewed against textual and epigraphic sources. It shows that the traditional picture of Roman hostility has been much

exaggerated. Instead Greek athletics came to exercise a profound influence upon Roman spectacle and bathing culture. In the Greek east of the empire too, athletics continued to thrive, providing Greek cities with a crucial means of asserting their cultural identity while also accommodating Roman imperial power.

Being Political - Engin Fahri Isin 2002-01-01
Being Political presents a powerful critique of universalistic and orientalist interpretations of the origins of citizenship and a persuasive alternative history of the present struggles over citizenship.

Mafia Politics - Marco Santoro 2021-11-30
This ground-breaking book offers a deep and original analysis of the Mafia - in particular Cosa Nostra - as a distinct form of politics. Marco Santoro breaks with criminal and economic approaches which see the Mafia as an industry of private protection and rationally calculating wealth accumulation. Instead he argues that it represents an alternative way of organizing political relations, the exercise of power, and the struggle for prestige. Nor is this a distortion or failure of the modern Western state, based on the rule of law: the Mafia is best understood as an older, alternative tradition of politics, a distinctly Southern institutional arrangement of social life focused on personal ties and obligations. Today, the Mafia still thrives among subaltern classes and in regions that the modern state has not yet incorporated, as a conservative counter-politics of prestige. Pivotal to understanding this world is a cultural sociology of the Mafia, offering the tools and concepts necessary to penetrate the symbolism and structures of Mafia life. Blending diverse theoretical strands with folk sources and the voices of Mafiosi themselves, Santoro develops a political theory of the Mafia, shedding new light on this captivating, global, and remarkably resilient phenomenon.

Bread and Circuses - Paul Veyne 1990
The phenomenon, known as "euergetism", is one of the most striking features of the ancient world. It can be seen as a form of

altruism, civic pride or wealth redistribution, a means of buying honour, prestige or political power. This book examines this phenomenon in ancient Greece and Rome.

Roman Political Thought - Dean Hammer 2014-07-28

This book is the first comprehensive treatment of Roman political thought, arguing that Romans engaged in wide-ranging reflections on politics.

Liturgical Power - Nicholas Heron 2017-11-28

Is Christianity exclusively a religious phenomenon, which must separate itself from all things political, or do its concepts actually underpin secular politics? To this question, which animated the twentieth-century debate on political theology, Liturgical Power advances a third alternative. Christian anti-politics, Heron contends, entails its own distinct conception of politics. Yet this politics, he argues, assumes the form of what today we call "administration," but which the ancients termed "economics." The book's principal aim is thus genealogical: it seeks to understand our current conception of government in light of an important but rarely acknowledged transformation in the idea of politics brought about by Christianity. This transformation in the idea of politics precipitates in turn a concurrent shift in the organization of power; an organization whose determining principle, Heron contends, is liturgy—understood in the broad sense as "public service." Whereas until now only liturgy's acclamatory dimension has made the concept available for political theory, Heron positions it more broadly as a technique of governance. What Christianity has bequeathed to political thought and forms, he argues, is thus a paradoxical technology of power that is grounded uniquely in service.

Jesus and the Powers - Richard A. Horsley 2010-10

Refusing a false dichotomy between 'politics' and 'religion' in Jesus' world (and our own), Richard A. Horsley explores Jesus' response to the imperial power of his day. Jesus and the Powers highlight the relevance of political realities under great empires for

the rise of covenantal theology and apocalyptic vision in Israel's history; situates aspects of Jesus' prophetic and exorcising activity in the context of the Roman Empire; and shows how the character of his death by crucifixion itself galvanized the movement around him as his followers shaped a new community life in the shadow of imperial powers.

Plutarch's Politics - Hugh Liebert 2016-09-08

Recasts Plutarch's Lives as a work of political philosophy emerging from the imperial encounter of Greece and Rome.

Comparative Political Thought - Michael Freeden 2013

This book examines some of the following issues: Is political theory 'Western-centric'? What can we learn from non-Western traditions of political thought? How do we compare different strands of national and regional political thought? Political thought in China, India, the Middle East and Latin America ; Islamic political thought and more. Political thought in the wake of post-colonialism. This is a much-needed overview of this key emerging area and will be of interest to all students of political theory, thought and philosophy.

The Son King - Madawi Al-Rasheed 2021-02-01

In 2018, journalist Jamal Khashoggi was murdered by Saudi regime operatives, shocking the international community and tarnishing the reputation of Muhammad bin Salman, the kingdom's young, reformist crown prince. Domestically, bin Salman's reforms have proven divisive, and his adoption of populist nationalism and fierce repression of diverse critical voices--religious scholars, feminists and dissident youth--have failed to silence a vibrant and well-connected Saudi society. Madawi Al-Rasheed lays bare the world of repression behind the crown prince's reforms. She dissects the Saudi regime's propaganda and progressive new image, while also dismissing Orientalist views that despotism is the only pathway to stable governance in the Middle East. Charting old and new challenges to the fragile Saudi nation from the kingdom's very inception, this blistering book exposes the dangerous contradictions at the heart of the Son King's Saudi Arabia.

Spectacles of Death in Ancient Rome - Donald G. Kyle 2012-11-12

The elaborate and inventive slaughter of humans and animals in the arena fed an insatiable desire for violent spectacle among the Roman people. Donald G. Kyle combines the words of ancient authors with current scholarly research and cross-cultural perspectives, as he explores * the origins and historical development of the games * who the victims were and why they were chosen * how the Romans disposed of the thousands of resulting corpses * the complex religious and ritual aspects of institutionalised violence * the particularly savage treatment given to defiant Christians. This lively and original work provides compelling, sometimes controversial, perspectives on the bloody entertainments of ancient Rome, which continue to fascinate us to this day.

From Clement to Origen - David Ivan Rankin 2016-04-15

From Clement to Origen addresses the engagement of a number of pre-Nicene Church Fathers with the surrounding culture. David Rankin considers the historical and social context of the Fathers, grouped in cities and regions, their writings and theological reflections, and discusses how the particular engagement of each with major aspects of the surrounding culture influences, informs and shapes their thought and the articulation of that thought. The social and historical context of the Church Fathers is explored with respect to the Roman state, the imperial office and imperial cult, Greco-Roman class structures and the patron-client system, issues of wealth production and other commercial activity, the major philosophical thinkers in antiquity, and to rhetorical theory and practice and the higher learning of the day.

Aeschines and Athenian Politics - Edward Monroe Harris 1995

* The first full-length study of the Athenian politician Aeschines. Though often overshadowed by his famous rival Demosthenes, Aeschines plays a major role in the decisive events that marked the rise of Macedonian power in Greece and thus marked the transition from the Classical to the Hellenistic period.

Ancient History: Key Themes and Approaches - Neville Morley 2002-09-09

Ancient History: Key Themes and Approaches is a sourcebook of writings on ancient history. It presents over 500 of the most important stimulating and provocative arguments by modern writers on the subject, and as such constitutes an invaluable reference resource. The first section deals with different aspects of life in the ancient world, such as democracy, imperialism, slavery and sexuality, while the second section covers the ideas of key ancient historians and other writers on classical antiquity. Overall this book offers an invaluable introduction to the most important ideas, theories and controversies in ancient history, and a thought-provoking survey of the range of views and approaches to the subject.

Roman Political Thought and the Modern Theoretical Imagination - Dean Hammer 2014-10-22

Links modern political theorists with the Romans who inspired them. Roman contributions to political theory have been acknowledged primarily in the province of law and administration. Even with a growing interest among classicists in Roman political thought, most political theorists view it as merely derivative of Greek philosophy. Focusing on the works of key Roman thinkers, Dean Hammer recasts the legacy of their political thought, examining their imaginative vision of a vulnerable political world and the relationship of the individual to this realm. By bringing modern political theorists into conversation with the Romans who inspired them—Arendt with Cicero, Machiavelli with Livy, Montesquieu with Tacitus, Foucault with Seneca—the author shows how both ancient Roman and modern European thinkers seek to recover an attachment to the political world that we actually inhabit, rather than to a utopia—a “perfect nowhere” outside of the existing order. Brimming with fresh interpretations of both ancient and modern theorists, this book offers provocative reading for classicists, political scientists, and anyone interested in

political theory and philosophy. It is also a timely meditation on the hidden ways in which democracy can give way to despotism when the animating spirit of politics succumbs to resignation, cynicism, and fear.

Roman Political Thought - Jed W. Atkins 2018-04-12

A thematic introduction to Roman political thought that shows the Romans' enduring contribution to key political ideas.

Bread and Circuses - Paul Veyne 1990

Issues in Transnational Policing - James Sheptycki 2002-01-04

Globalisation, the wired planet, the global village, these are a few of the terms associated with the social and political changes that are said to describe the world at the beginning of the new millennium. One of the most important institutions of the social ordering has been that of policing, but very little has been written on how the practices of social control are affected by the processes of transnationalisation. This book brings together contributions by experts on policing that focus on some of the newly emergent policing issues connected with these changes: *the global private security industry *cross national networking between police *the establishment of an international criminal court *money laundering *policing cyberspace *the drug war Issues in Transnational Policing crosses the boundaries between criminology, international relations and international law to provide a thought-provoking picture of the complex issues surrounding the politics of policing in the future.

A Companion to the Neronian Age - Emma Buckley 2013-05-03

An authoritative overview and helpful resource for students and scholars of Roman history and Latin literature during the reign of Nero. The first book of its kind to treat this era, which has gained in popularity in recent years Makes much important research available in English for the first time Features a balance of new research with established critical lines Offers an unusual breadth and range of material, including substantial treatments of politics,

administration, the imperial court, art, archaeology, literature and reception studies Includes a mix of established scholars and groundbreaking new voices Includes detailed maps and illustrations

Security, Territory, Population - Michel Foucault 2009-02-03

Foreword - Introduction - 11 January 1978 - 18 January 1978 - 25 January 1978 - 1 February 1978 - 8 February 1978 - 15 February 1978 - 22 February 1978 - 1 March 1978 - 8 March 1978 - 15 March 1978 - 22 March 1978 - 29 March 1978 - 5 April 1978 - Course Summary - Course Context - Index of Notions - Index of Names.

History in the Humanities and Social Sciences - Richard Bourke 2022-12-22

This interdisciplinary volume explores the relationship between history and a range of disciplines in the humanities and social sciences: economics, political science, political theory, international relations, sociology, philosophy, law, literature and anthropology. The relevance of historical approaches within these disciplines has shifted over the centuries. Many of them, like law and economics, originally depended on self-consciously historical procedures. These included the marshalling of evidence from past experience, philological techniques and source criticism. Between the late nineteenth and the middle of the twentieth century, the influence of new methods of research, many indebted to models favoured by the natural sciences, such as statistical, analytical or empirical approaches, secured an expanding intellectual authority while the hegemony of historical methods declined in relative terms. In the aftermath of this change, the essays collected in History in the Humanities and Social Sciences reflect from a variety of angles on the relevance of historical concerns to representative disciplines as they are configured today.

Sociological Studies in Roman History - Keith Hopkins 2018

Collected essays by Cambridge sociologist Keith Hopkins - one of the most radical, innovative and influential Roman historians of his

generation.

Problematics of Military Power - Michael S. Drake 2013-10-18

This book traces the relations between the organization of violence and social and political order from ancient Rome to early modern Europe. Following the work of Michel Foucault, the author studies the ways authority, obedience and forms of self-conduct were produced by the micro-techniques used to govern the bodies of violence deployed in different forms of warfare.

Understanding Philanthropy - Robert L. Payton 2008-03-26

Philanthropy has existed in various forms in all cultures and civilizations throughout history, yet most people know little about it and its distinctive place in our lives. Why does philanthropy exist? Why do people so often turn to philanthropy when we want to make the world a better place? In essence, what is philanthropy? These fundamental questions are tackled in this engaging and original book. Written by one of the founding figures in the field of philanthropic studies, Robert L. Payton, and his former student sociologist Michael P. Moody, *Understanding Philanthropy* presents a new way of thinking about the meaning and mission of philanthropy. Weaving together accessible theoretical explanations with fascinating examples of philanthropic action, this book advances key scholarly debates about philanthropy and offers practitioners a way of explaining the rationale for their nonprofit efforts.

Routledge Companion to Sports History - S. W. Pope 2009-12-17

The field of sports history is no longer a fledgling area of study. There is a great vitality in the field and it has matured dramatically over the past decade. Reflecting changes to traditional approaches, sport historians need now to engage with contemporary debates about history, to be encouraged to position themselves and their methodologies in relation to current epistemological issues, and to promote the importance of reflecting on the literary or poetic dimensions of producing history. These contemporary developments, along with a wealth of

international research from a range of theoretical perspectives, provide the backdrop to the new Routledge Companion to Sports History. This book provides a comprehensive guide to the international field of sports history as it has developed as an academic area of study. Readers are guided through the development of the field across a range of thematic and geographical contexts and are introduced to the latest cutting edge approaches within the field. Including contributions from many of the world's leading sports historians, the Routledge Companion to Sports History is the most important single volume for researchers and students in, and entering, the sports history field. It is an essential guide to contemporary research themes, to new ways of doing sports history, and to the theoretical and methodological foundations of this most fascinating of subjects.

The Capacity to Govern - Yehezkel Dror 2012-12-06

The inadequacies of contemporary forms of governance are increasingly recognized: the brain drain from politics, distrust of governments, the danger of mass media and money-dominated elections, and the failure of governments to find good policy options on major issues. Industry, civil society and non-governmental organizations, however important, cannot compensate for government's incapacity to shape the future, which only it is democratically entitled to do. Radical improvements in governance are urgently needed, but salient proposals are scarce. This book diagnoses contemporary governments as obsolete and proposes changes in values, structures, staffing, public understanding and political culture to equip governance for the radically novel challenges of the 21st century. This is the first Report dealing with governance commissioned and approved by the Club of Rome, testifying to the significance of this book.

Studies in Jewish Civilization 26 - Leonard J. Greenspoon 2015
"Twenty-Sixth Annual Klutznick-Harris Symposium, October 27 and October 28, 2013, in Omaha, Nebraska."

Legitimacy and Politics - Jean-Marc Coicaud 2002-10-31

The increase in cases of political corruption, the loss of politicians' credibility, the development of social and political forms of pathology (notably the rise of the extreme right along with exclusionist ideologies), and the role of the State have been at the center of political debates. In one way or another, these problems raise the question of the legitimacy of the established powers. The result is that legitimacy, a key notion of political thought in general, has today become a burning issue. Coicaud examines all these issues and proffers insightful answers to questions such as the connections between morality and politics, how rulers acquire or lose the right to govern, and how one can become the advocate of a theory of political justice that, while establishing limits, respects and even ensures the promotion of plurality within societies.

Critical And Effective Histories - Mitchell Dean 2002-11

Critical and Effective Histories contrasts Foucault's methodologies with central currents in social theory and philosophy. It provides a guide to doing historical sociology, and an original position on the condition of social science today.

Legitimizing Identities - Rodney Barker 2001-10-18

This book discusses how rulers cultivate their identity for their own self-justification and esteem.

Adam Smith and the Circles of Sympathy - Fonna Forman-Barzilai 2010-04-30

This 2010 text pursues Adam Smith's views on moral judgement, humanitarian care, commerce, justice and international law both in historical context and through a twenty-first-century cosmopolitan lens, making this a major contribution not only to Smith studies but also to the history of cosmopolitan thought and to contemporary cosmopolitan discourse itself. Forman-Barzilai breaks ground, demonstrating the spatial texture of Smith's moral psychology and the ways he believed that physical, affective and cultural distance constrain the identities, connections and ethical

obligations of modern commercial people. Forman-Barzilai emphasizes his resistance to the sort of relativism, moral insularity and cultural chauvinism that too often accompany localist critiques of cosmopolitan thought today. This is a fascinating, revisionist study that integrates the perspectives of intellectual history, moral philosophy, political theory, cultural theory, international relations theory and political economy, and will appeal across the humanities and social sciences.

The Geopolitics of Spectacle - Natalie Koch 2018-06-15

"Develops a geographic approach to the politics of spectacle and its unspectacular Others through examining recent spectacular capital city development projects in seven authoritarian, resource-rich states of Central Asia, the Arabian Peninsula, and East Asia"--

Looking at Animals in Human History - Linda Kalof 2007-08-15

From the first cave paintings to Britta Jaschinski's provocative animal photography, it seems we have been describing and portraying animals, in some form or another, for as long as we have been human. This book provides a broad historical overview of our representations of animals, from prehistory to postmodernity, and how those representations have altered with changing social conditions. Taking in a wide range of visual and textual materials, Linda Kalof unearths many surprising and revealing examples of our depictions of animals. She also examines animals in a broad sweep of literature, narrative and criticism: from Pliny the Elder's Natural History to Donna Haraway's writings on animal-human-machine interaction; and from accounts of the Black Plague and histories of the domestic animal and zoos, to the ways that animal stereotypes have been applied to people to highlight hierarchies of gender, race and class. Well-researched and scholarly, yet very accessible, this book is a significant contribution to the human-animal story. Featuring more than 60 images, Looking at Animals in Human History brings together a wealth of information that will appeal to the wide audience interested in animals, as well as to specialists in many

disciplines. Linda Kalof is professor of sociology at Michigan State University. Her books include *The Earthscan Reader in Environmental Values* and *The Animals Reader: The Essential Classic and Contemporary Writings*.

Jesus and the Politics of Roman Palestine - Richard A. Horsley
2021-11-11

In *Jesus and the Politics of Roman Palestine*, Richard A. Horsley offers one of the most comprehensive critical analyses of Jesus of Nazareth's mission and how he became a significant historical figure. Horsley brings a fuller historical knowledge of the context and implications of recent research to bear on the investigation of the historical Jesus. Breaking with the standard focus on isolated individual sayings of Jesus, Horsley argues that the sources for Jesus in historical interaction are the Gospels and the speeches of Jesus that they include, read critically in their historical context. This work challenges the standard assumptions that the historical

Jesus has been presented primarily as a sage or apocalyptic visionary. In contrast, based on a critical reconsideration of the Gospels and contemporary sources for Roman imperial rule in Judea and Galilee, Horsley argues that Jesus was fully involved in the conflicted politics of ancient Palestine. Learning from anthropological studies of the more subtle forms of peasant politics, Horsley discerns from these sources how Jesus, as a Moses- and Elijah-like prophet, generated a movement of renewal in Israel that was focused on village communities. This paperback edition is updated with a new preface, bibliography, and indexes.
Knowledge, Discipline and Power in the Middle Ages - Joseph Canning
2011-05-23

This collection of essays is based on a conference in honour of David Luscombe held at the University of Sheffield in September 2006 under the title "Knowledge, Discipline and Power in the Middle Ages."
