classics!

**Italian Fantasies** - Israel Zangwill 1910

Honeybee Democracy - Thomas D. Seeley  
2010-09-20

Honeybees make decisions collectively--and

democratically. Every year, faced with the life-or-death problem of choosing and traveling to a new home, honeybees stake everything on a process that includes collective fact-finding, vigorous debate, and consensus building. In fact, as world-renowned animal behaviorist Thomas Seeley reveals, these incredible insects have much to teach us when it comes to collective wisdom and effective decision making. A remarkable and richly illustrated account of scientific discovery, *Honeybee Democracy* brings together, for the first time, decades of Seeley's pioneering research to tell the amazing story of house hunting and democratic debate among the honeybees. In the late spring and early summer, as a bee colony becomes overcrowded, a third of the hive stays behind and rears a new queen, while a swarm of thousands departs with the old queen to produce a daughter colony. Seeley describes how these bees evaluate potential nest sites, advertise their discoveries to one another, engage in open deliberation, choose a final site,

and navigate together--as a swirling cloud of bees--to their new home. Seeley investigates how evolution has honed the decision-making methods of honeybees over millions of years, and he considers similarities between the ways that bee swarms and primate brains process information. He concludes that what works well for bees can also work well for people: any decision-making group should consist of individuals with shared interests and mutual respect, a leader's influence should be minimized, debate should be relied upon, diverse solutions should be sought, and the majority should be counted on for a dependable resolution. An impressive exploration of animal behavior, *Honeybee Democracy* shows that decision-making groups, whether honeybee or human, can be smarter than even the smartest individuals in them.

**Funds of Knowledge - Norma Gonzalez**

Downloaded from [ect2018.fpu.edu.py](http://ect2018.fpu.edu.py)  
on by guest

2006-04-21

The concept of "funds of knowledge" is based on a simple premise: people are competent and have knowledge, and their life experiences have given them that knowledge. The claim in this book is that first-hand research experiences with families allow one to document this competence and knowledge, and that such engagement provides many possibilities for positive pedagogical actions. Drawing from both Vygotskian and neo-sociocultural perspectives in designing a methodology that views the everyday practices of language and action as constructing knowledge, the funds of knowledge approach facilitates a systematic and powerful way to represent communities in terms of the resources they possess and how to harness them for classroom teaching. This book accomplishes three objectives: It gives readers the basic methodology and techniques followed in the contributors' funds of knowledge research; it extends the boundaries of what these

researchers have done; and it explores the applications to classroom practice that can result from teachers knowing the communities in which they work. In a time when national educational discourses focus on system reform and wholesale replicability across school sites, this book offers a counter-perspective stating that instruction must be linked to students' lives, and that details of effective pedagogy should be linked to local histories and community contexts. This approach should not be confused with parent participation programs, although that is often a fortuitous consequence of the work described. It is also not an attempt to teach parents "how to do school" although that could certainly be an outcome if the parents so desired. Instead, the funds of knowledge approach attempts to accomplish something that may be even more challenging: to alter the perceptions of working-class or poor communities by viewing their households primarily in terms of their strengths and resources, their defining pedagogical

characteristics. *Funds of Knowledge: Theorizing Practices in Households, Communities, and Classrooms* is a critically important volume for all teachers and teachers-to-be, and for researchers and graduate students of language, culture, and education.

*History of Art in Ancient Egypt* - Georges Perrot  
1883

Translating Style - Tim Parks 2014-06-03

Arising from a dissatisfaction with blandly general or abstrusely theoretical approaches to translation, this book sets out to show, through detailed and lively analysis, what it really means to translate literary style. Combining linguistic and lit crit approaches, it proceeds through a series of interconnected chapters to analyse translations of the works of D.H. Lawrence, Virginia Woolf, James Joyce, Samuel Beckett, Henry Green and Barbara Pym. Each chapter thus becomes an illuminating critical essay on the author concerned, showing how divergences

between original and translation tend to be of a different kind for each author depending on the nature of his or her inspiration. This new and thoroughly revised edition introduces a system of 'back translation' that now makes Tim Parks' highly-praised book reader friendly even for those with little or no Italian. An entirely new final chapter considers the profound effects that globalization and the search for an immediate international readership is having on both literary translation and literature itself.

**The Latin Sexual Vocabulary** - J. N. Adams  
1990-10

Like other languages, Latin contained certain words its speakers considered obscene as well as a rich stock of sexual euphemism and metaphor. Our sources for this information range from surviving graffiti to literary works with a marked sexual content. Yet despite its manifest literary and linguistic interest, the sexual vocabulary of Latin has remained uninvestigated by scholars. J. A. Adams's pioneering and unique reference work

collects for the first time evidence of Latin obscenities and sexual euphemisms drawn from both literary and nonliterary sources from the early Republic to about the fourth century A.D. Separate chapters treat each of the sexual parts of the body and the terminology used to describe sexual acts. General topics include the influence of Greek language on Latin, changes in the Latin vocabulary over time (including the evolution of sexual words into general terms of abuse), and lexical differences among various literary genres.

**The Official Dictionary of Unofficial English** - Grant Barrett 2010-06-14

The words come from different countries where English is spoken, such as the United States, the United Kingdom, Hong Kong, South Africa, and others. The author's website has received more than 1.2 million hits since its launch in 2004, and he is frequently interviewed about language in publications such as the New York Times Börsenblatt für den deutschen Buchhandel Leipzig - 1872

**The Only Road** - Alexandra Diaz 2016-10-04  
PURA BELPRÉ HONOR BOOK ALA NOTABLE BOOK  
“An important, must-have addition to the growing body of literature with immigrant themes.” —School Library Journal (starred review) Twelve-year-old Jaime makes the treacherous and life-changing journey from his home in Guatemala to live with his older brother in the United States in this “powerful and timely” (Booklist, starred review) middle grade novel. Jaime is sitting on his bed drawing when he hears a scream. Instantly, he knows: Miguel, his cousin and best friend, is dead. Everyone in Jaime’s small town in Guatemala knows someone who has been killed by the Alphas, a powerful gang that’s known for violence and drug trafficking. Anyone who refuses to work for them is hurt or killed—like Miguel. With Miguel gone, Jaime fears that he is next. There’s only one choice: accompanied by his cousin Ángela, Jaime must flee his home to live with his older brother in New Mexico. Inspired by true events, *The Only Road* is

an individual story of a boy who feels that leaving his home and risking everything is his only chance for a better life. The story is “told with heartbreaking honesty,” Booklist raved, and “will bring readers face to face with the harsh realities immigrants go through in the hope of finding a better, safer life, and it will likely cause them to reflect on what it means to be human.”

*Lost Girls (Expanded Edition)* - Alan Moore

2019-01-15

The groundbreaking, controversial masterpiece of erotic comics, decades in the making, now in a sumptuous hardcover collecting all three volumes, with 32 pages of new artwork and commentary. For more than a century, Alice, Wendy and Dorothy have been our guides through the Wonderland, Neverland and Land of Oz of our childhoods. Now like us, these three lost girls have grown up and are ready to guide us again, this time through the realms of our sexual awakening and fulfillment. Through their familiar fairytales they share with us their most

intimate revelations of desire in its many forms, revelations that shine out radiantly through the dark clouds of war gathering around a luxury Austrian hotel. Drawing on the rich heritage of erotica, *Lost Girls* is the rediscovery of the power of ecstatic writing and art in a sublime union that only the medium of comics can achieve.

Exquisite, thoughtful, and human, *Lost Girls* is a work of breathtaking scope that challenges the very notion of art fettered by convention. This is erotic fiction at its finest.

**The Cambridge History of American Poetry** -

Alfred Bendixen 2014-10-27

The Cambridge History of American Poetry offers a comprehensive exploration of the development of American poetic traditions from their beginnings until the end of the twentieth century. Bringing together the insights of fifty distinguished scholars, this literary history emphasizes the complex roles that poetry has played in American cultural and intellectual life, detailing the variety of ways in which both public

and private forms of poetry have met the needs of different communities at different times. The Cambridge History of American Poetry recognizes the existence of multiple traditions and a dramatically fluid canon, providing current perspectives on both major authors and a number of representative figures whose work embodies the diversity of America's democratic traditions.

**Archie Giant Comics Adventure** - Archie Superstars 2021-11-16

ARCHIE GIANT COMICS ADVENTURE offers popular, proven full-color content at the same price and page count as most black-and-white mass-market paperbacks. Featuring special behind-the-scenes anecdotes that shed light on decades of mirth, this is a must-have for all comic book fans everywhere!

**Haitian Creole-English Dictionary** - Jean Targète 1993

*Personal Effects* - Deborah Holdstein 2002

In *Personal Effects*, Holdstein and Bleich compile a volume that cuts across the grain of current orthodoxy. These editors and contributors argue that it is fundamental in humanistic scholarship to take account of the personal and collective experiences of scholars, researchers, critics, and

teachers. With this volume, then, these scholars move us to explore the intersections of the social with subjectivity, with voice, ideology, and culture, and to consider the roles of these in the work of academics who study writing and literature. Taken together, the essays in this collection carry forward the idea that the personal, the candidly subjective and intersubjective, must be part of the subject of study in humanities scholarship. They propose an understanding of the personal in scholarship that is more helpful because more clearly anchored in human experience.

**How Tobacco Smoke Causes Disease** - 2010

This report considers the biological and behavioral mechanisms that may underlie the pathogenicity of tobacco smoke. Many Surgeon General's reports have considered research findings on mechanisms in assessing the biological plausibility of associations observed in epidemiologic studies. Mechanisms of disease are important because they may provide

plausibility, which is one of the guideline criteria for assessing evidence on causation. This report specifically reviews the evidence on the potential mechanisms by which smoking causes diseases and considers whether a mechanism is likely to be operative in the production of human disease by tobacco smoke. This evidence is relevant to understanding how smoking causes disease, to identifying those who may be particularly susceptible, and to assessing the potential risks of tobacco products.

*Writing in a Bilingual Program* - Carole Edelsky  
1986

A year-long study of the writing development of 27 first through third graders in an English/Spanish bilingual program was conducted during the 1980-81 school year. Samples of the children's writing were collected at four intervals, coded for computer tallying, and analyzed in terms of code-switching, spelling, punctuation and segmentation, structural features, stylistic devices, and content. Additionally, the context in

which the writing developed was evaluated by classroom observations, teacher interviews, review of familial backgrounds, and a survey of the community language situation. Myths about bilingual language proficiency, biliteracy, bilingual education, teaching writing, and learning to write are all countered by evidence presented in this study. In a discussion of implications, the concept of a whole language approach to writing instruction is supported, in which authentic and functional texts are offered to and produced by children. Examples of the children's writing with appropriate translations are given along with various tables. Informal follow-up information is presented in three epilogues dealing with changes in the researcher's commitment to the study's original writing theories, the writing of some students a year after the study; and a chronological outline of the demise of the bilingual program used in the study. Appendices list interview questions used for teachers and aides and categories for

coding the writing data. This book contains 134 references. (ALL)

*Formless* - Yve-Alain Bois 1997

Published to accompany exhibition held at the Centre Georges Pompidou, Paris 22/5 - 26/8 1996.

**The Satires of Juvenal** - Juvenal 1906

**One of Those Days** - Yehuda Devir 2020-11-10

Based on the wildly popular webcomic, *One of Those Days* chronicles the life and love of Yehuda and Maya Devir as they take on the minutiae of marriage, the ups and downs of daily life, and the paradigm shift of new parenthood. "Bursting with life . . . We get to know them through one-panel installments as though they've walked straight into the room, introduced themselves, and moved in."—Kate Beaton, #1 New York Times bestselling author of *Hark! A Vagrant* Yehuda and Maya Devir began illustrating their life in comics when they moved into their first apartment together in Tel Aviv as newlyweds. In the years

since, *One of Those Days* has become one of the biggest webcomics on the Internet, with millions of followers around the world. Yehuda Devir grew up on superhero comic books, and the Devirs' visual style is downright kinetic and bursting with life. In this collection—the first time that the Devirs' comics have been compiled in one volume—they share stories that are heartwarming, hilarious, and universally recognizable. So even for those who don't feel like pulling out an assault rifle to wage war on a kitchen cockroach, the Devirs' challenges and triumphs are instantly familiar to anyone who's had one of those days.

**The Corruption of Angels** - Mark Gregory Pegg 2005-08-14

On two hundred and one days between May 1, 1245, and August 1, 1246, more than five thousand people from the Lauragais were questioned in Toulouse about the heresy of the good men and the good women (more commonly known as Catharism). Nobles and diviners,

butchers and monks, concubines and physicians, blacksmiths and pregnant girls--in short, all men over fourteen and women over twelve--were summoned by Dominican inquisitors Bernart de Caux and Jean de Saint-Pierre. In the cloister of the Saint-Sernin abbey, before scribes and witnesses, they confessed whether they, or anyone else, had ever seen, heard, helped, or sought salvation through the heretics. This inquisition into heretical depravity was the single largest investigation, in the shortest time, in the entire European Middle Ages. Mark Gregory Pegg examines the sole surviving manuscript of this great inquisition with unprecedented care--often in unexpected ways--to build a richly textured understanding of social life in southern France in the early thirteenth century. He explores what the interrogations reveal about the individual and communal lives of those interrogated and how the interrogations themselves shaped villagers' perceptions of those lives. *The Corruption of Angels*, similar in breadth and scope to

Emmanuel Le Roy Ladurie's *Montaillou*, is a major contribution to the field. It shows how heretical and orthodox beliefs flourished side by side and, more broadly, what life was like in one particular time and place. Pegg's passionate and beautifully written evocation of a medieval world will fascinate a diverse readership within and beyond the academy.

**Pleasure of Ruins** - Rose Macaulay 2018-10-15  
This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a

format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

*Historical Pragmatics* - Andreas H. Jucker  
1995-01-01

Until very recently, pragmatics has been restricted to the analysis of contemporary spoken language while historical linguistics has studied historical texts and language change in a decontextualized way. This has now radically changed and scholars from around the world are trying to build a new theoretical framework that integrates recent advances both in pragmatics and in historical linguistics. The volume, which contains 22 original articles, starts with an introduction that is both a state-of-the-art account of historical pragmatics and a programmatic statement of its future potential and its different subfields. Part I contains seven pragmaphilological papers that deal with historical texts and their interpretations by paying close attention to the communicative context of these texts. The second and third parts comprise papers in diachronic pragmatics. The ten papers of part II take a linguistic form as

their starting point, e.g. particular lexical items or syntactic constructions, and study their pragmatic functions at different times (diachronic form-to-function mappings), while the four papers of part III take a particular pragmatic function as their starting point, e.g. discourse strategies or politeness, and study their linguistic realisation at different times (diachronic function-to-form mappings).

**The Physicists** - Friedrich Dürrenmatt 1963  
National Theatre, Louis A. Lotito, managing director, Allen-Hodgdon, Inc., and Stevens Productions, Inc., present Hume Cronyn, Robert Shaw, Jessica Tandy, George Voskovec, Martyn Green in "The Physicists," a new comedy by Friedrich Duerrenmatt (adapted by James Kirkup), with Frances Heflin, Doris Rich, Judith Brown, scenery, lighting and costumes by John Bury, supervision by Lloyd Burlingame, produced by arrangement with Robert Whitehead, production staged by Peter Brook.  
*Fearless Fosdick* - Al Capp 1992

## **Betty & Veronica Decades: The 1960s -**

Archie Superstars 2022-04-12

Journey back to the Silver Age with America's Sweethearts, Betty Cooper and Veronica Lodge, as the duo scaled to new heights of hilarity in the Sensational Sixties! Continue the 80th anniversary celebration of Archie Comics with this special retrospective collection! Betty & Veronica shined bright in the 1960s when their standalone title proved to be interesting, hilarious and unforgettable -- and their fashion was always top-notch! "Decades" features some of the iconic stories that cemented their lasting imprint on the world.

Bullied - Aieu Oka 2019-08-29

Tazaki spends every day being bullied by the athletic Sae, the full figured Minako and the sadistic Izumi, and now he's at his breaking point! With no hope in sight, vengeance accidentally falls into his lap when he successfully hypnotizes all three of them. Now he controls these twisted girls without them being

any the wiser; rewriting their very understanding of him and bending their wills!

Making and Rethinking the Renaissance -

Giancarlo Abbamonte 2019-06-04

The purpose of this volume is to investigate the crucial role played by the return of knowledge of Greek in the transformation of European culture, both through the translation of texts, and through the direct study of the language. It aims to collect and organize in one database all the digitalised versions of the first editions of Greek grammars, lexica and school texts available in Europe in the 14th and 15th centuries, between two crucial dates: the start of Chrysoloras's teaching in Florence (c. 1397) and the end of the activity of Aldo Manuzio and Andrea Asolano in Venice (c. 1529). This is the first step in a major investigation into the knowledge of Greek and its dissemination in Western Europe: the selection of the texts and the first milestones in teaching methods were put together in that period, through the work of scholars like Chrysoloras,

Guarino and many others. A remarkable role was played also by the men involved in the Council of Ferrara (1438-39), where there was a large circulation of Greek books and ideas. About ten years later, Giovanni Tortelli, together with Pope Nicholas V, took the first steps in founding the Vatican Library. Research into the return of the knowledge of Greek to Western Europe has suffered for a long time from the lack of intersection of skills and fields of research: to fully understand this phenomenon, one has to go back a very long way through the tradition of the texts and their reception in contexts as different as the Middle Ages and the beginning of Renaissance humanism. However, over the past thirty years, scholars have demonstrated the crucial role played by the return of knowledge of Greek in the transformation of European culture, both through the translation of texts, and through the direct study of the language. In addition, the actual translations from Greek into Latin remain poorly studied and a clear

understanding of the intellectual and cultural contexts that produced them is lacking. In the Middle Ages the knowledge of Greek was limited to isolated areas that had no reciprocal links. As had happened to many Latin authors, all Greek literature was rather neglected, perhaps because a number of philosophical texts had already been available in translation from the seventh century AD, or because of a sense of mistrust, due to their ethnic and religious differences. Between the 12th and 14th century AD, a change is perceptible: the sharp decrease in Greek texts and knowledge in the South of Italy, once a reference-point for this kind of study, was perhaps an important reason prompting Italian humanists to go and study Greek in Constantinople. Over the past thirty years it has become evident to scholars that humanism, through the re-appreciation of classical antiquity, created a bridge to the modern era, which also includes the Middle Ages. The criticism by the humanists of medieval authors did not prevent

them from using a number of tools that the Middle Ages had developed or synthesized: glossaries, epitomes, dictionaries, encyclopaedias, translations, commentaries. At present one thing that is missing, however, is a systematic study of the tools used for the study of Greek between the 15th and 16th century; this is truly important, because, in the following centuries, Greek culture provided the basis of European thought in all the most important fields of knowledge. This volume seeks to supply that

gap.

**The Encyclopedia of American Animated Television Shows** - David Perlmutter

2018-05-04

This volume highlights North American animated television series broadcast between 1948 and 2016, providing credits for their original broadcast period and significant members of the cast and crew, as well as short descriptive and critical analyses.
