Five Meters of Time - 2020-05-10

What happens if the world unexpectedly stands still for a moment? If, just like that, you are given a bit of time by sheer luck? This is exactly what happens in one of the biggest and busiest cities of the world, as a small snail crosses the street and makes traffic stop for half a day. A book about things that you always wanted to do but never had the time for.

Interculturalism, Education and Inclusion - Jagdish S Gundara 2000-10-13

Jagdish Gundara has made a very substantial contribution to the field with this work and it is to the rest of us to make connections with it and help in the gigantic tasks of finding solutions'- Tony Booth, Canterbury Christ Church University, *British Journal of Educational Studies* `This work deals with the question of how education can help in the task of developing cohesive civil societies by turning notions of singular identities into those of multiple ones, and by developing a shared and common value system and public culture. Jagdish S Gundara begins with a mini-biography of his own history, which he describes as an "intercultural apprenticeship", and in which the interweaving of different strands of identity is strikingly described. His first chapter then presents "Multicultural Britain". Here Jagdish S Gundara argues that the post-war immigrant presence has highlighted aspects of British historical diversity - Britain's permanent multi-culturalism and addresses issues of group identity, culture and racism. Following chapters discuss basic issues in intercultural education; practicing intercultural education; post-school intercultural education; interculturalism in Europe; the role of the state; building a common and shared value system; Asian and global perspectives; and knowledge, social science and the curriculum. Jagdish S Gundara has a personal perspective on education issues influenced by his involvement for many years. This is an eloquent book' - Race Relations`Jagdish S Gundara's own early experiences have given him unique insights into both the problems and the possibilities of relationships between cultures. His book reflects a life dedicated to fostering positive intercultural relations and provides an analysis of the role of education in overcoming the barriers. All who are interested in building genuinely inclusive notions of education and citizenship will benefit from reading this impressive book' - Geoff Whitty, Karl Mannheim Professor of Sociology of Education, University of London `This is a most interesting, accessible and useful book, which deserves to be read by a wide range of education practitioners from school, further education and not least the policy

makers in these sectors' - Stephen Bigger, *Escalate* Jagdish S Gundara raises a range of critical issues for educators as a consequence of historical and contemporary aspects of social diversity. Using a historical and social science framework, the author examines issues concerning national minorities and immigrant communities. He outlines a view of multicultural Britain, and shows how education at all levels needs to change to embrace an intercultural position. The book also deals with interculturalism in Europe and Asia, the role of state organizations, and the need to foster 'communities of hope'. Based on the authors professional experience in schools, the community and further and higher education, the book assumes no detailed knowledge, and aims to make the concepts of intercultural education accessible to a wide audience.

The Essence of Nihilism - Emanuele Severino 2016-10-01

A groundbreaking classic of contemporary philosophy for the first time in English translation Between 1961 and 1970, Emanuele Severino was subjected to a thorough investigation by the Vatican Inquisition. The "fundamental incompatibility" identified between his thought and Christian doctrine ejected him from his position as Professor of Philosophy at the Catholic University in Milan. The *Essence of Nihilism*, published in 1972, was the first book to follow his expulsion, and it established Severino's preeminent position within the constellation of contemporary philosophy. In this groundbreaking and classic book—now for the first time available in English—Severino reinterprets the history of Western philosophy as the unfolding of "the greatest folly," that is, of the belief that "things come out of nothing and fall back into nothing." According to Severino, such a typically Western understanding of reality has resulted in a conviction that there is a radical "nothingness" to existence. In turn, this justifies the treatment of the world as an object of exploitation, degradation and destruction. To move beyond Western nihilism, suggests Severino, we must first of all "return to Parmenides." Joining forces with the most venerable of Greek philosophers, Severino confutes nihilism's "path of night", and develops a new philosophy grounded on the principle of the eternity of reality and of every single existent thing.

Greek Resurrection Beliefs and the Success of Christianity - D. Endsjø 2009-06-22

This book examines the relationship between the growth of Christianity in Greece and the belief in resurrection from the dead. It gives a clear presentation of various generally unknown aspects about traditional Greek religion, such as stories about people being made physically immortal and the Greek fascination with the flesh.

La domenica del Corriere supplemento illustrato del Corriere della sera - 1945

Religious Pluralism - Giuseppe Giordan 2014-07-08

This volume illustrates both theoretically and empirically the differences between religious diversity and religious pluralism. It highlights how the factual situation of cultural and religious diversity may lead to individual, social and political choices of organized and recognized pluralism. In the process, both individual and collective identities are redefined, incessantly moving along the continuum that ranges from exclusion to inclusion. The book starts by first detailing general issues related to religious pluralism. It makes the case for keeping the empirical, the normative, the regulatory and the interactive dimensions of religious pluralism analytically distinct while recognizing that, in practice, they often overlap. It also underlines the importance of seeking connections between religious pluralism and other pluralisms. Next, the book explores how religious diversity can operate to contribute to legal pluralism and examines the different types of church-state relations: eradication, monopoly, oligopoly and pluralism. The second half of the book features case studies that provide a more

specific look at the general issues, from ways to map and assess the religious diversity of a whole country to a comparison between Belgian-French views of religious and philosophical diversity, from religious pluralism in Italy to the shifting approach to ethnic and religious diversity in America, and from a sociological and historical perspective of religious plurality in Japan to an exploration of Brazilian religions, old and new. The transition from religious diversity to religious pluralism is one of the most important challenges that will reshape the role of religion in contemporary society. This book provides readers with insights that will help them better understand and interpret this unprecedented transition.

God is to be Found in All Things - La Civiltà Cattolica 2022-03-17

A collection of 10 articles from the January 2021 edition of La Civiltà Cattolica, the highly respected and oldest Catholic journal published from Rome. 2021 is a year of great expectations of big pharma and politicians delivering on speedy vaccination and promises of their efficacy. As well, politicians are also expected to lead us out of economic recession. One of the first leaders to offer us a vision for a new economic future is Pope Francis. In *The Economy of Francesco* and *Young People* Gaël Giraud discusses the pope's call to young economists to meet and reflect on how to create "an economy that gives life and does not kill, includes and does not exclude, humanizes and does not dehumanize, takes care of creation and does not plunder it." Cho Hyun-Chul's *Economics of Covid-19* explains how a move towards localized economies and a reasonable level of self-sufficiency is possible in light of Pope Francis' encyclical *Laudato si'* Juan Carlos Scannone and the *Theology of the People* by Paul Gilbert offers an analysis of Scannone's philosophy and theology and a definition of 'the people' And 55 years after *Dignitatis Humanae* Felix Körner writes about *Religious Freedom: Facing New Challenges*.

The Living God and the Fullness of Life - Jürgen Moltmann 2015-11-06

Modern humanity has accepted a truncated, impoverished definition of life. Focusing solely on material realities, we have forgotten that joy, purpose, and meaning come from a life that is both immersed in the temporal and alive to the transcendent. We have, in other words, ceased to live in God. In this book, renowned theologian Jürgen Moltmann shows us what that life of joy and purpose looks like. Describing how we came to live in a world devoid of the ultimate, he charts a way back to an intimate connection with the biblical God. He counsels that we adopt a "theology of life," an orientation that sees God at work in both the mundane and the extraordinary and that pushes us to work for a world that fully reflects the life of its Creator. Moltmann offers a telling critique of the shallow values of consumerist society and provides a compelling rationale for why spiritual sensibilities and encounter with God must lie at the heart of any life that seeks to be authentically human.

On Time and Water - Andri Snær Magnason 2020-08-06

Icelandic author and activist Andri Snær Magnason's 'Letter to the Future', an extraordinary and moving eulogy for the lost Okjökull glacier, made global news and was shared by millions. Now he attempts to come to terms with the issues we all face in his new book *On Time and Water*. Magnason writes of the melting glaciers, the rising seas and acidity changes that haven't been seen for 50 million years. These are changes that will affect all life on earth. Taking a path to climate science through ancient myths about sacred cows, stories of ancestors and relatives and interviews with the Dalai Lama, Magnason allows himself to be both personal and scientific. The result is an absorbing mixture of travel, history, science and philosophy.

Quando tutto è dolore - Sonia Ambroset 2017-09-06

Il testo affronta il tema del dolore esistenziale alla fine della vita che costituisce un nodo centrale nel mondo delle Cure Palliative. Mentre per ciò che concerne il dolore fisico è stato fatto molto, nel caso del "distress" esistenziale non esistono al momento contributi teorici e metodologici organicamente dedicati. Si tratta di una forte lacuna sia sul piano culturale che sul piano della cura delle persone. Nel testo si dà una chiara definizione di questa condizione, si dà conto di tutti gli interventi che possono essere messi in atto al fine di lenire il dolore globale (total pain)

Religious America, Secular Europe? - Peter Berger 2021-12-17

Europe is a relatively secular part of the world in global terms. Why is this so? And why is the situation in Europe so different from that in the United States? The first chapter of this book - the theme - articulates this contrast. The remaining chapters - the variations - look in turn at the historical, philosophical, institutional and sociological dimensions of these differences. Key ideas are examined in detail, among them: constitutional issues; the Enlightenment; systems of law, education and welfare; questions of class, ethnicity, gender and generation. In each chapter both the similarities and differences between the European and the American cases are carefully scrutinized. The final chapter explores the ways in which these features translate into policy on both sides of the Atlantic. This book is highly topical and relates very directly to current misunderstandings between Europe and America.

Religion as Communication - Enzo Pace 2016-04-08

Why do Gods persist in contemporary society? Religious revival and vitality all over the world contradict the vision of continuing declining of belief. This linear process of eclipse of the sacred in modern society has been proved wrong. Religion indeed is an expert system competent in ultimate meanings of human being and social order. Enzo Pace argues that religion persists as a symbol because of its intrinsic power of communication, in its will to wield the power to dominate the event of death, and to build a bridge between the visible and the invisible. The crucial passage from living word to holy scripture is a fundamental device in the construction of a system of religious belief. This book provides an insight on a new approach to religious studies, drawing from systems theory to consider religion as a means of communication, and offering a critical alternative to the secularization theory to explain why religion persists in modernity.

The Renewal of Pagan Antiquity - Aby Warburg 1999

A collection of essays by the art historian Aby Warburg, these essays look beyond iconography to more psychological aspects of artistic creation: the conditions under which art was practised; its social and cultural contexts; and its conceivable historical meaning.

An Introduction to Formal Logic - Peter Smith 2003-11-06

Formal logic provides us with a powerful set of techniques for criticizing some arguments and showing others to be valid. These techniques are relevant to all of us with an interest in being skilful and accurate reasoners. In this highly accessible book, Peter Smith presents a guide to the fundamental aims and basic elements of formal logic. He introduces the reader to the languages of propositional and predicate logic, and then develops formal systems for evaluating arguments translated into these languages, concentrating on the easily comprehensible 'tree' method. His discussion is richly illustrated with worked examples and exercises. A distinctive feature is that, alongside the formal work, there is illuminating philosophical commentary. This book will make an ideal text for a first logic course, and will provide a firm basis for further work in formal and philosophical logic.

A Breath of Life - Clarice Lispector 2012-06-13

A mystical dialogue between a male author and his creation, this posthumous work has never before been translated, and is a book of particular beauty and strangeness. A mystical dialogue between a male author (a thinly disguised Clarice Lispector) and his/her creation, a woman named Angela, this posthumous work has never before been translated. Lispector did not even live to see it published. At her death, a mountain of fragments remained to be "structured" by Olga Borelli. These fragments form a dialogue between a god-like author who infuses the breath of life into his creation: the speaking, breathing, dying creation herself, Angela Pralini. The work's almost occult appeal arises from the perception that if Angela dies, Clarice will have to die as well. And she did.

Sadhana - Anthony De Mello 1984-09-01

Christian Exercises in Eastern Form Truly a one-of-a-kind, how-to-do-it book, this small volume responds to a very real hunger for self-awareness and holistic living. It consists of a series of spiritual exercises for entering the contemplative state -- blending psychology, spiritual therapy, and practices from both Eastern and Western traditions. Anthony de Mello offers here an unparalleled approach to inner peace that brings the whole person to prayer -- body and soul, heart and mind, memory and imagination. In forty-seven exercises that teach things such as awareness of physical sensations, stillness, healing of hurtful memories, and consciousness of self and world, de Mello succeeds in helping all who have ever experienced prayer as difficult, dull, or frustrating. The essential key, he notes, is to journey beyond mere thought-forms and discover satisfying new depths in prayer from the heart. This allows for a greater sense of awareness amid silence, and disposes the one who prays

to untold riches, spiritual fulfillment, and ultimately, a mystical experience of God-centeredness. Drawing on Scripture, as well as insights from Eastern and Western spiritual masters, the author has a unique appeal that transcends time, culture, and religious background. For many years a bestseller in the English language, Sadhana has now been translated into more than two dozen foreign languages. Readers the world over have eagerly received this sincere spiritual leader, who has led many toward the wealth of insight and spirit that dwells within them.

Night Conversations with Cardinal Martini: The Relevance of the Church for Tomorrow - Carlo Maria Martini 2014-05-14

Carlo M. Martini was cardinal of the largest diocese in the world, a scholar, and one of the most renowned men of the church. Georg Sporschill has worked in prisons and lived with drug-addicted street children in Romania and Moldavia. The two Jesuits met in Jerusalem and became friends: two worlds, one faith--and a passionate search for ways in which the message of Jesus of Nazareth can still be effective for tomorrow. In a series of conversations they ask what faith can mean for life, what future young people have in the church, and what must be changed so that Christianity itself has a future. The questions from young people are the catalyst for deep thought. Is the future only dark? Where are the rays of light on the horizon? What would Jesus say today?

The Function of the Sciences and the Meaning of Man - Enzo Paci 1972

The Changing Soul of Europe - Assoc Prof Inger Furseth 2014-08-28

This book paves the way for a more enlarged discussion on religion and migration phenomena in countries of Northern and Southern Europe. From a comparative perspective, these are regions with very different religious traditions and different historical State/Church relations. Although official religion persisted longer in Nordic Protestant countries than in South Mediterranean countries, levels of secularization are higher. In the last decades, both Northern and Southern Europe have received strong flows of newcomers. From this perspective, the book presents through various theoretical lenses and empirical researches the impact mobility and consequent religious transnationalism have on multiple aspects of culture and social life in societies where the religious landscapes are increasingly diverse. The chapters demonstrate that we are dealing with complex scenarios: different contexts of reception, different countries of origin, various ethnicities and religious traditions (Catholics, Orthodox and Evangelical Christians, Muslims, Buddhists). Having become plural spaces, our societies tend to be far more concerned with the issue of social integration rather than with that of social identities reconstruction in society as a whole, often ignoring that today religion manifests itself as a plurality of religions. In short, what are the implications of newcomers for the religious life of Europe and for the redesign of its soul?

Daphne and the Centaurs - Overcoming Gender Based Violence - Caterina Arcidiacono 2013-07-17

The authors of this volume look into the origins of gender based violence as well as ways to tackle this issue. They link systematic reflections unfold-ing a socio-cultural viewpoint and depictions of concrete action with psychological tools regarding the effect of interventions. The book is a result of the European project "Empower", which is part of the Daphne III Programme (2007-2013) and whose goal is to realize the objectives defined by European policy aimed at preventing and fighting all forms of gender based violence.

Bruder Tod - In Würde leben und in Würde sterben - Vincenzo Paglia 2017-09-15

Sterbende werden im Stich gelassen und der Tod bagatellisiert oder skandalisiert: Mit klaren Worten widmet sich Vincenzo Paglia einem der wichtigsten Themen überhaupt, der Frage nach dem Sterben und unserem Umgang damit. Treffend in der Analyse, aber zugleich emotional und mitreißend, streitet Paglia dafür, Leben und Sterben im Zusammenhang zu sehen und die Würde des Menschen zu schützen. Sein Buch ist ein klares Statement in der Sterbehilfedebatte, das sich einerseits aus einem fundierten Wissen um medizinische und ethische Grundlagen und andererseits aus persönlichen Erfahrungen und Begegnungen speist. Paglia weist zudem konkrete Wege auf, wie wir uns und andere vorbereiten und begleiten können in diesen existenziellen Situationen. "Der Mensch wird alleine gelassen, gerade dann, wenn er

Hilfe braucht, im Moment des Sterbens - und auch nach dem Tod." (Vincenzo Paglia) Im seinem ausführlichen Vorwort schreibt Manfred Lütz: "Er [Paglio] weicht den Debatten nicht aus, legt aber den Schwerpunkt eindeutig auf die Wirklichkeit der sterbenden Menschen. Und diese Wirklichkeit ist nicht einfach schwarz oder weiß und sie ist vor allem weit weniger einheitlich, als die öffentlichen Debatten mitunter glauben machen wollen. Vincenzo Paglia ist Seelsorger und so erzählt er von berührenden Geschichten, die er mit berührenden Menschen erlebt hat. Es sind die wirklich sterbenden Menschen, die ihn bewegen." Dennoch ist es Paglios Anliegen, ideologische Scheuklappen abzulegen. Das wird ohne aufmerksame und mutige Überlegungen nicht funktionieren. Und ohne die Einbeziehung einer humanistischen und weisen Sicht der menschlichen Existenz und somit auch ihrer letzten Phase, sieht er die Gefahr, dass die Diskussion ins Oberflächliche abdriftet. In der Beantwortung der großen Fragen nach den letzten Dingen, sieht Paglia alle Christen in der Verantwortung. Gemeinsam möchte er sich auf die Suche begeben nach einer neuen verheißungsvollen Antwort.

Opere filosofiche - Antonio Rosmini 2021-01-28T00:00:00+01:00

Antonio Rosmini (1797-1855) ha subito cinque processi, con due condanne, due assoluzioni e una beatificazione (2007). Mentre è in corso la canonizzazione, si offre un'antologia sistematica delle Opere Filosofiche dalle quali parecchi stanno lontano a causa della loro vastità e complessità; ostacoli però qui superati con una selezione dei brani più importanti versati in italiano corrente, introdotti e commentati. Non si vuole tuttavia ripetere scolasticamente Rosmini bensì imparare a filosofare con lui oltre a lui in "spirito di carità intellettuale" e facendo tesoro delle verità perenni scolpite nelle sue pagine. Studiare Rosmini conviene perché: 1) si recupera il meglio di quanto offerto dall'intera storia della filosofia (grazie a migliaia di citazioni); 2) se ne affrontano i temi principali (struttura del conoscere, forme dell'essere, metafisica della creazione, psicosomatica, principi logici, morali, sociali); 3) si percorrono varie discipline grazie al suo sapere enciclopedico che ne fanno il filosofo italiano più colto di sempre; 4) ci si arricchisce sul piano esistenziale e spirituale secondo un modello raramente offerto da altri. Completano e arricchiscono il volume, due "Tesori Filosofici" e ampie e aggiornate bibliografie. Le opere antologizzate sono: 1. Introduzione alla filosofia. 2. Nuovo saggio sull'origine delle idee. 3. Logica. 4. Teosofia. 5. Antropologia. 6. Psicologia. 7. Principi della scienza morale. 8. Trattato della coscienza morale. 9. Scritti pedagogici. 10. Filosofia della politica. 11. Filosofia del diritto.

Writings of Catherine of Siena (Annotated) - Keith Beasley-Topliffe 2017-04-01

With: Historical commentary Biographical info Appendix with further readings For nearly 2,000 years, Christian mystics, martyrs, and sages have documented their search for the divine. Their writings have bestowed boundless wisdom upon subsequent generations. But they have also burdened many spiritual seekers. The sheer volume of available material creates a seemingly insurmountable obstacle. Enter the Upper Room Spiritual Classics series, a collection of authoritative texts on Christian spirituality curated for the everyday reader. Designed to introduce 15 spiritual giants and the range of their works, these volumes are a first-rate resource for beginner and expert alike. Living in turbulent 14th-century Italy, Catherine was driven to submit her will completely to God's will for her. Her intense prayer life led her to write hundreds of letters to friends, other monastics, and heads of state, urging them to turn away from sin and draw closer to God. Catherine's life of total prayer has long inspired admiration.

Nihilism and Destiny - Emanuele Severino 2016-02-10T00:00:00+01:00

"Two souls live within us": one is nihilism and the other is destiny. In this collection of essays, Emanuele Severino, one of the most important thinkers of contemporary times, illuminates the meaning of these words and engages with the most profound questions of philosophy, as well as the most essential matters for each one of us. This volume is precious not only because of its content, but also because it offers an international audience a preview into one of the most original philosophers of all time: this is, in fact, the first volume by Severino to be translated into English. By affirming the eternal nature inherent to each thing, he has opened up a path previously unknown to philosophy.

The Plots Against Hitler - Danny Orbach 2016-10-11

The first definitive account of the anti-Nazi underground in Germany: "Superb" (Publishers Weekly). In 1933, Adolf Hitler became chancellor of Germany. A year later, all political parties but the Nazis had been outlawed, freedom of the press was but a memory, and Hitler's dominance seemed complete. Yet over the next few years, an unlikely cadre of conspirators emerged—schoolteachers, politicians, theologians, even a carpenter—who would try repeatedly to end the Führer's genocidal reign. This dramatic account is history at its most suspenseful, revealing the full story of those noble, ingenious, but ultimately failed efforts. Orbach's fresh research offers profound new insight into the conspirators' methods, motivations, fears, and hopes. We've had no idea until now how close they came—several times—to succeeding. *The Plots Against Hitler* fundamentally alters our view of World War II and sheds bright—even redemptive—light on its darkest days. "A riveting narrative of the organization, conspiracy, and sacrifices made by those who led the resistance against Hitler. Orbach deftly analyzes the mixed motives, moral ambiguities and organizational vulnerability that marked their work, while reminding us forcefully of their essential bravery and rightness. And he challenges us to ask whether we would have summoned the same courage." —Charles S. Maier, professor of history, Harvard University, and author of *Among Empires* "[A] gripping look at a historical counternarrative that remains relevant and disturbing." —Kirkus Reviews

Theological Incorrectness - Jason Slone 2007-12-03

Why do religious people believe what they shouldn't -- not what others think they shouldn't believe, but things that don't accord with their own avowed religious beliefs? D. Jason Slone terms this phenomenon "theological incorrectness." He argues that it exists because the mind is built in such a way that it's natural for us to think divergent thoughts simultaneously. Human minds are great at coming up with innovative ideas that help them make sense of the world, he says, but those ideas do not always jibe with official religious beliefs. From this fact we derive the important lesson that what we learn from our environment -- religious ideas, for example -- does not necessarily cause us to behave in ways consistent with that knowledge. Slone presents the latest discoveries from the cognitive science of religion and shows how they help us to understand exactly why it is that religious people do and think things that they shouldn't.
