Research - Serwan M. J. Baban 2009

Despite having a workforce consisting of highly qualified staff, some universities do not have high levels of research productivity and lack a research culture. The possible reasons for research-inactive staff may be due to a lack of mentoring for Anew@ members of staff in terms of research proposal preparations, viable research strategies, ongoing research supervision as well as finding and targeting funding agencies. This book has been divided into three sections: the first defines and characterizes research, with chapters identifying strategies for research and pinpointing ethical issues; the second section discusses

in detail developing the research proposal, formulating the research problem, using statistics effectively and evaluating the successful research project; and the final section addresses ways to write the research results in such a way as to secure funding and publish in peer-reviewed journals. It contains useful checklists, activities and practical suggestions to facilitate research productivity and output. The work is of interest to graduate students, junior-level faculty, and university administrators committed to increasing research productivity and global research funding and rankings.

Chanting Down Babylon - Nathaniel Samuel Murrell 1998
This anthology explores Rastafari religion, culture, and politics in Jamaica and other parts of the African diaspora. An Afro-Caribbean religious and cultural movement that sprang from the streets of Kingston, Jamaica, in the 1930s, today Rastafari has close to one million adherents. The basic message of Rastafari—the dismantling of all oppressive institutions and the liberation of humankind—even has strong appeal to non-believers who are captivated by reggae music, the lyrics, and the "immortal spirit" of its enormously popular practitioner, Bob Marley. Probing into Rastafari's still evolving belief system, political goals, and cultural expression, the contributors to this volume emphasize the importance of Africana history and the Caribbean context. Author note: Nathaniel Samuel Murrell is Assistant Professor of Philosophy and Religion at the University of North Carolina, Wilmington, and Visiting Professor at the Caribbean Graduate School of Theology in Kingston, Jamaica. William David

Spencer serves as Pastor of Encouragement at Pilgrim Church in Beverly, MA, and was an Adjunct Professor of Theology at Gordon-Conwell Theological Seminary's Center for Urban Ministerial Education in Boston. He has authored, co-authored, or edited *The Prayer of Life of Jesus*, *Mysterium and Mystery: The Clerical Crime Novel*, *God through the Looking Glass*, *Joy through the Night*, *2 Corinthians: Bible Study Commentary* and *The Global God*. Unpopular Privacy - Anita Allen 2011-10-17

Can the government stick us with privacy we don't want? It can, it does, and according to Anita L. Allen, it may

need to do more of it. Privacy is a foundational good, Allen argues, a necessary tool in the liberty-lover's kit for a successful life. A nation committed to personal freedom must be prepared to mandate privacy protections for its people, whether they eagerly embrace them or not. This unique book draws attention to privacies of seclusion, concealment, confidentiality and data-protection undervalued by their intended beneficiaries and targets--and outlines the best reasons for imposing them. Allen looks at laws designed to keep website operators from collecting personal information, laws that force strippers to wear thongs, and the myriad employee and professional confidentiality rules--including insider trading laws--that require strict silence about matters whose disclosure could earn us small fortunes. She shows that such laws recognize the extraordinary importance of dignity, trust and reputation, helping to preserve social, economic and political options throughout a lifetime.

Pathways to Action: Social Policy in the Caribbean -

Aldrie Henry-Lee 2016-01-29

The dynamics of everyday life in the 21st century provides fertile ground for the resurgence of the importance of sociology. In this technologically driven, diverse, but interconnected global society, the study of social life, social change, communities and the quest to find empirical answers to complex social questions has re-emerged as a critical component to navigating the uncharted waters of a shifting social world and new social problems. Social Scientists are the ones who contribute the solutions to the issues that present themselves in the public domain. Discussions of gender, sexuality and identity, youth and popular culture, family life, globalisation, and a changing political

landscape all inform the development of social institutions and the shaping of social policy, politics and public life. In Pathways to Action, the contributors, all experts in their fields, examine the contemporary social challenges in the Caribbean in the areas of demographic transition, early childhood development, health, poverty, labour policies and ageing, and put forward recommendations for sustainable social development. The shifting paradigms over the past 50 years since political independence are reviewed and examined in an international, regional and local context to showcase the development of social policy in the Caribbean in general and Barbados, Jamaica, and Trinidad and Tobago in particular. The emerging recommendations, proposed to enhance the human development of the Caribbean citizenry, are valuable not only to researchers and policy analysts, but are also of practical importance to those engaged in social institutions, both large and small, whether they be commercial entities, NGOs, governance forums or political bodies. Pathways to Action provides a foundation for understanding the shifting social world and meeting the challenges peculiar to the Caribbean.

Moral Argument, Religion, and Same-Sex Marriage - Gordon A. Babst 2009-09-03

The diverse expert contributors to this volume from the fields of politics and law use moral argumentation with respect to same-sex marriage, gay rights in general, and California's Prop 8. The arguments are advanced in terms of the nation's foundational political and legal principles, extending ethical argumentation to important contemporary public policy areas such as marriage, the separation of church and state, and the rearing of children. Several chapters also contest the perceived if not actual establishment in the law and public policy of heterosexist and religious bias that continues to work against full and meaningful inclusion of sexual minorities. This bias is ironically and improperly couched in the language of American political and religious values, and it misunderstands the nation's core principles, or willfully miscasts them as inapplicable to many Americans and their families. Nonetheless, this bias is pervasive in the nation's political discourse, working to deny an important right and the recognition of equality to many citizens. The main contribution of *Moral Argument, Religion, and Same-Sex Marriage* is in its direct engagement with the political and legal arguments of the gay community's critics on their own moral and ethical terms. Along the

way, important concepts in public discourse such as governmental neutrality, the right to marry, and religious freedom are presented and cast in the light of liberal-democratic theory.

Gender in the 21st Century - Barbara Evelyn Bailey 2004
For more than two decades, feminist activists in the Caribbean have been researching, teaching, writing and collaborating with organisations and groups at all levels to improve the status of women, and to protect and advance their rights. This volume, *Gender in the 21st Century*, commemorates the pioneering work of feminists, scholars and activists by reflecting on some of the major issues which have engaged them and influenced their scholarship and work since the early 1980s. It also addresses issues at the cutting edge of Gender and Development Studies, adopting a strong policy focus for treating current social and gender inequity. Finally, the volume looks to the future and speculates on the place of gender in the academy, as well as its outreach, and provides a unique opportunity to explore, with highly respected and renowned scholars, aspects of

the present state of Gender Studies and prospects for the future of this dynamic area of scholarship.

Why Privacy Isn't Everything - Anita L. Allen 2003
Accountability protects public health and safety, facilitates law enforcement, and enhances national security, but it is much more than a bureaucratic concern for corporations, public administrators, and the criminal justice system. In *Why Privacy Isn't Everything*, Anita L. Allen provides a highly original treatment of neglected issues affecting the intimacies of everyday life, and freshly examines how a preeminent liberal society accommodates the competing demands of vital privacy and vital accountability for personal matters. Thus, 'None of your business!' is at times the wrong thing to say, as much of what appears to be self-regarding conduct has implications for others that should have some bearing on how a person chooses to act. The book addresses such questions as, What does it mean to be accountable for conduct? For what personal matters am I accountable, and to whom? Allen concludes that the sticky webs of accountability that encase ordinary life are flexible enough to accommodate egalitarian moral, legal and social practices that are highly consistent with contemporary feminist reconstructions of liberalism.

Random Family - Adrian Nicole LeBlanc 2012-10-23
This New York Times bestseller intimately depicts urban life in a gripping book that slips behind cold statistics and sensationalism to reveal the true sagas lurking behind the headlines of gangsta glamour. In her extraordinary bestseller, Adrian Nicole LeBlanc immerses readers in the intricacies of the ghetto, revealing the true sagas lurking behind the headlines of gangsta glamour, gold-drenched drug dealers, and street-corner

society. Focusing on two romances—Jessica's dizzying infatuation with a hugely successful young heroin dealer, Boy George, and Coco's first love with Jessica's little brother, Cesar—*Random Family* is the story of young people trying to outrun their destinies. Jessica and Boy George ride the wild adventure between riches and ruin, while Coco and Cesar stick closer to the street, all four caught in a precarious dance between survival and death. Friends get murdered; the DEA and FBI investigate Boy George; Cesar becomes a fugitive; Jessica and Coco endure homelessness, betrayal, the heartbreaking separation of prison, and, throughout it all, the insidious damage of poverty. Charting the tumultuous cycle of the generations—as girls become mothers, boys become criminals, and hope struggles against deprivation—LeBlanc slips behind the cold statistics and sensationalism and comes back with a riveting, haunting, and true story.

Intervention, Terrorism, and Torture - Steven P. Lee 2006-11-22

This book asks whether just war theory and its rules for determining when war is justified remains adequate to the challenges posed by contemporary developments. Some argue that the nature of contemporary war makes these rules obsolete. By carefully examining the phenomena of intervention, terrorism, and torture from a number of different perspectives, the essays in this book explore this complex set of issues with insight and clarity.

Freedom of Expression in a Diverse World - Deirdre Golash 2010-07-01

The essays in this volume consider issues at the intersection of freedom of expression and racial, cultural, and gender diversity. The claims of those whose cultures and beliefs differ from our own are no longer the exclusive province of diplomats, as the Danish newspaper that published cartoons ridiculing Mohammed quickly learned. Negotiating the claims of freedom of expression as they come into open conflict with a wide diversity of viewpoints, both domestically and internationally, has become an increasingly complex

task. The present volume seeks both to provide fresh insight into the philosophical grounds for limiting government restriction of expression and to address current tensions between freedom of expression and pluralism. The suppression of ideas by government is no doubt as old as government itself. Ideas help to keep governments in power, and opposing ideas can help them to lose it. As well, through most of the history of the world, the belief that some know better than others what is true, what is right, and what is valuable has been sufficiently widespread to make it seem natural for those betters to dictate for the rest what they should believe. Just as clerics did not hesitate to dictate to their congregations, Christians did not hesitate to impose their beliefs on non-Christians in order to save their souls.
